Telephone Systems Continent Classic Reprint:

The Telephone Systems of the Continent of Europe (Classic Reprint) Alfred Rosling Bennett, 2015-07-08 Excerpt from The Telephone Systems of the Continent of Europe During the discussion on the existing state and future conduct of telephony in the United Kingdom which have taken place pretty continuously during the last few years many references have cropped up to foreign and more especially to continental practice Statements have frequently been made as to the existence of what to the British public have appeared fabulously low rates in Holland Switzerland Norway Sweden and elsewhere statements to which support was given from time to time by various consular reports The facts set forth the believers in and advocates of low rates in this country have endeavoured occasionally to turn to their advantage in argument but owing to lack of exact information and the denials of their opponents with little result The apologists of the existing monopoly have either traversed in toto the truth of the statements or have declared that the conditions under which such rates exist are radically different from those which obtain in the United Kingdom About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
