Ignite: A Decolonial Approach to Higher Education Through Space, Place and Culture Laura M. Pipe, Jennifer T. Stephens, 2023-05-09 Social justice frameworks and pedagogical practice have become popular concepts within educational settings. However, these approaches stop short of the direct action required for true social change and often overlook the impacts and importance of space, place and culture in the learning process. Through an exploration of justice forward approaches that call for a blend of equity and culturally responsive pedagogies with experiential approaches to learning, this edited book will examine the process of unlinking colonizing structures from teaching and learning through honoring the context of space, place and culture in the learning process. Framed by the Toward a Liberated Learning Spirit TALLS Model for Developing Critical Consciousness, this book will be of interest to students, scholars and researchers in higher education as well as critical and cultural studies. Apart from program administrators and educators, Ignite: A Decolonial Approach to Higher Education Through Space, Place and Culture will carry the reader through a learning process beginning with academic detachment and moving through a process of unlearning toward embodied liberation.

How They Lived James Ciment, 2015-12-14 Ideal for history majors, nonhistory majors taking history courses as well as general readers, this book provides not only the primary documents and artifacts of ordinary people in history but also annotations that help the reader put them into context and grasp their deeper meaning. This two volume work explores daily life across human history through primary sources, making use of this primary source material as well as detailed analysis to help readers understand and use these sources as evidence of how life used to be. The diverse selection of sources includes artifacts, inscriptions, histories, letters and first hand accounts, ranging from ancient times to the emergence of modern Europe to the present day. This set makes use of an innovative layout: facing pages contain a primary source selection on the left side with the introduction and analysis on the right side. This facing pages layout allows readers to access the text information and the primary source itself without any distracting page turning. Unlike most other books on history that relay key momentous events in history and tales regarding kings and generals, aristocrats and the highly educated, *How They Lived: An Annotated Tour of Daily Life through History in Primary Sources* includes significant coverage of ordinary people and interesting information about everyday life at all levels of society. As a result, this collection helps close the gap in what students of history are typically exposed to through its presentation of both written documents and images of artifacts.

Aztec City-state Capitals Michael Ernest Smith, 2008 The Aztecs ruled much of Mexico from the thirteenth century until the

Spanish conquest in 1521 Outside of the imperial capital of Tenochtitlan various urban centers ruled the numerous city states that covered the central Mexican landscape Aztec City State Capitals is the first work to focus attention outside Tenochtitlan revealing these dozens of smaller cities to have been the central hubs of political economic and religious life integral to the grand infrastructure of the Aztec empire Focusing on building styles urban townscapes layouts and designs Michael Smith combines two archaeological approaches monumental excavations of pyramids palaces and public buildings and social excavations of houses workshops and fields As a result he is able to integrate the urban built environment and the lives of the Aztec peoples as reconstructed from excavations Smith demonstrates the ways in which these city state capitals were different from Tenochtitlan and convincingly argues that urban design is the direct result of decisions made by political leaders to legitimize their own power and political roles in the states of the Aztec empire [The Early Mesoamerican Village](#)
