**The Third Wave** Steve Case, 2017-04-18 Steve Case co founder of America Online AOL and one of America's most accomplished entrepreneurs shares a roadmap for how anyone can succeed in a world of rapidly changing technology. We are entering, he explains, a new paradigm called the Third Wave of the Internet. The first wave saw AOL and other companies lay the foundation for consumers to connect to the Internet. The second wave saw companies like Google and Facebook build on top of the Internet to create search and social networking capabilities while apps like Snapchat and Instagram leverage the smartphone revolution. Now Case argues we're entering the Third Wave, a period in which entrepreneurs will vastly transform major real-world sectors like health, education, transportation, energy, and food, and in the process change the way we live our daily lives.

One of America's most accomplished entrepreneurs, a pioneer who made the Internet part of everyday life and orchestrated the largest merger in the history of business, shares a roadmap for how anyone can succeed in a world of rapidly changing technology. Steve Case's career began when he cofounded America Online (AOL) in 1985. At the time, only three percent of Americans were online. It took a decade for AOL to achieve mainstream success, and there were many near-death experiences and back-to-the-wall pivots. AOL became the top-performing company of the 1990s and, at its peak, more than half of all consumer Internet traffic in the United States ran through the service. After Case engineered AOL's merger with Time Warner and he became Chairman of the combined business, Case oversaw the biggest media and communications empire in the world. In *The Third Wave*, which pays homage to the work of the futurist Alvin Toffler from whom Case has borrowed the title and whose work inspired him as a young man, Case takes us behind the scenes of some of the most consequential and
