

# R.M.S HIBERNIA 1844

Philadelphia - Liverpool

Folded letter with text from Philadelphia to Liverpool, sent on the 30<sup>th</sup> of July 1844. The letter (including two other letters for Batavia and Canton, requiring three rates in U.S.), was placed in the letter bag of Cunard Line's steamer "Hibernia" at Boston avoiding U.S. internal postage. In the lower left corner, the letter was endorsed "Steamer Hibernia from Boston", a reference to the Cunard steamship.

Hibernia, which departed Boston on the 1<sup>st</sup> of August and arrived at Liverpool on the 13<sup>th</sup> of August 1844. Hibernia's mail arrived at London the next day, 14 September 1844, as shown by a 24 mm orange circular date stamp on the reverse. The letter was prepaid 36 1/2¢ for triple inland rate to Boston and 2-shilling postage due for double packet rate.

Hibernia was built at the shipyard of Robert Steele & Co. of Greenock, Scotland and launched on 8 September 1842. On 19 April 1843, she sailed on her maiden voyage from Liverpool-Halifax-Boston. From 1843 to 1849, she held the eastbound Blue Riband, having taken it from her sister Columbia. In 1850, she was sold to the Spanish Navy and renamed Habana.

Forrester,2016-04-15 During the nineteenth century Britain s maritime commercial and colonial interests all depended upon  
a regular and reliable flow of seaborne information from around the globe Whilst the telegraph increasingly came to  
dominate long distance communication postal services by sea played a vital role in the network of information exchange  
particularly to the more distant locations Much importance was placed upon these services by the British government which  
provided large subsidies to a small number of commercial companies to operate them Concentrating initially on the mail  
service between Britain and South America this book explores the economic and political involvement of at the outset The  
Royal Mail Steam Packet Company later Royal Mail Lines from 1851 until 1874 The Company s West Indies services were  
subsidized from 1840 until the early years of the 20th century As well as providing a business history of the Royal Mail  
companies the book reveals much of the development of Brazil and Argentina as trading nations and the many and varied  
consequences of maintaining a long distance mail service Improved ship design led to larger vessels of greater cargo  
capacities essential to the growth of the lucrative and highly competitive import export trades between Britain and Europe  
and South America The provision of increased passenger services contributed to the very considerable British financial  
commercial and industrial interests in Latin America well into the 20th century The book also addresses the international  
competition faced by Royal Mail Lines which reflected Britain s progressively diminishing dominance of global trade and  
shipping In all this book has much to say that will interest not only business historians but all those seeking a better  
understanding of Britain s maritime and economic history      **Scientific American** ,1928 Monthly magazine devoted to topics
