**Humanocracy, Updated and Expanded** Gary Hamel, Michele Zanini, 2025-08-26 A powerful new edition of the Wall Street Journal bestseller that helps leaders build radically more human and capable organizations. Now more than ever we need organizations that are daring, resilient, and creative. Unfortunately, when confronted by unprecedented challenges, most companies and institutions prove to be timid, plodding, and orthodox. The culprit is bureaucracy. With its top-down power structures and rule-choked systems, bureaucracy hobbles ingenuity and innovation. In a time of upheaval, these long-tolerated impediments are fast becoming competitively and economically untenable. Humanity needs and deserves something better. In *Humanocracy*, Gary Hamel and Michele Zanini make a passionate, data-driven argument for unstalling bureaucracy and reinventing management as we know it. In this extensively updated and expanded edition, readers will find new and compelling case studies, the latest research findings, and a wealth of fresh and provocative insights. *Humanocracy* is both a manifesto for institutional renewal and a blueprint for building organizations that are as courageous, energetic, and ingenious as the people inside them. Essential building blocks include: Motivation, Rallying colleagues to the challenge of reimagining management as usual; Models, Leveraging the experience of vanguard organizations that have successfully disrupted the bureaucratic status quo; Mindsets, Escaping the industrial age thinking that undermines the quest to build radically more capable organizations; Mobilization, Activating a pro-change coalition to hack outmoded management systems and processes; Migration, Embedding the principles of humanocracy: ownership, markets, meritocracy, community, openness, experimentation, and paradox; and your organization's DNA. If you've finally run out of patience with bureaucratic bullshit, if you're eager to build an organization that can outrun change and outperform expectations, if you believe every team member deserves the chance to do something extraordinary, then this book's for you.

**The Digital Future of English** Simone Murray, 2025-07-18 More than any other academic discipline, literary studies is the creation of print culture. How then can it thrive in the digital era? Early 1990s predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology. Yet we have grown to experience the two media as complexly interdependent and even complementary. Clearly, digital does not kill print. But literary studies in the digital era cannot simply resume business as usual. It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology. The digital era prompts a rethinking of literary studies' object of study as well as its methods, theories, audiences, and pedagogical practices. What counts as literature necessarily shifts in an age of proliferating born-digital texts and do-it-yourself DIY online publication. Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis? Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect? Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book-loving publics has never been

technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future
