Global Meets Digital Vinod Jain, 2023-06-02 The world today is at the intersection of two

megatrends Globalization and Digitalization a business revolution unfolding in real time Global Meets Digital captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India's 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta

Mobile Payment and Customer Behavior. Where does

Germany stand? Adrian Demuth, 2023-06-06 Essay from the year 2020 in the subject Business economics Investment and Finance grade 1 University of Applied Sciences Ludwigshafen course Finance und Economics language English abstract Mobile Payment represents a global trend of the future which is already commonplace in some countries This trend needs to be examined and analysed more closely Which effects does Mobile Payment have on the consumer and which problems might be the reason for the different acceptance and spread of Mobile Payment These questions are discussed in more detail in the following paper which deals with the topic of Mobile Payment and consumer behaviour Taking photos or videos checking for

news chatting with friends while watching videos The role and the impact of smartphones and its mobile apps has changed more and more over the last years For most people it has become an indispensable tool While going out for shopping of groceries or clothes people nowadays just carry their most important things with them These are often their keys wallets and smartphones But the number of these things could decrease further in the next few years due to the technological developments of the smartphone For example unlocking smart locks via Bluetooth enabled smartphones or regarding the elimination of the wallet the development of Mobile Payment systems The Smartphone is the central medium of the future which will have to bridge the gap between easy usability and secure and fast processes Especially concerning Mobile Payment which represents a new way of paying via smartphone New providers are offering payment methods and a changed purchasing behaviour of end customers increasingly determines the product landscape and the market shares of these payment systems Interestingly however Mobile Payment is a very controversial topic The controversy can already be seen here if one briefly looks at the global spread and acceptance of Mobile Payment While in Germany currently only about 25% of all people are users of Mobile Payment 71% of all people in China use Mobile Payment systems

Strategic Management Sushil, Sanjay Dhir, 2024-09-25 This book emphasizes the concepts of strategic innovation and entrepreneurship which are quite prevalent in today's organizations Going beyond traditional approach that follows strategic analysis choice and implementation framework and traditional theories based on industrial organization paradigm and resource based view the book considers current business environment which is volatile uncertain complex chaotic conflicting and ambiguous VUCA It takes the strategic flexibility view to cope with these strategic challenges The book introduces the subject matter of strategic management in retrospect and prospect highlighting critical theories of strategic management It uses a strategic learning framework rather than a purely analytical approach to dynamically learn about the external situation internal resources and capabilities The evolution of strategy is given in terms of generic strategies in practice and adaptation in specific contexts It further deals with essential topics such as strategic alliances and networks mergers and acquisitions and global strategy It then provides the execution framework and models covering restructuring leadership corporate governance and change management The strategy in specific areas such as strategic technology management e business and knowledge management and functional strategies and policies are discussed to understand the implementation depth Finally it touches upon contemporary issues such as sustainable enterprise stakeholder perspectives and comparative strategies in various contexts It then outlines future directions of strategic management In the end case analysis guidelines are provided with sample cases from different parts of the world The book also used interpretive and simulation methods such as system dynamics and total interpretive structural modeling to grasp the relationships and their dynamic impact provided throughout the book It will be an invaluable resource for researchers of business strategy as well as students studying these courses it will also be useful for industry practitioners corporates and business policy makers
