The Terrorism Reader:

The Terrorism Reader David J. Whittaker, 2012-12-12 The Terrorism Reader is an intriguing introduction to a notorious and disturbing international phenomenon. The book draws together material from a variety of experts and clearly explains their opinions on terrorism, allowing understanding, conjecture and debate. David J. Whittaker explores all aspects of terrorism from its definition, psychological and sociological effects, legal and ethical issues to counter terrorism. In a particularly original way the Reader illustrates the growth and variety of terrorism with a series of case studies from four continents including the Taliban and the al Qaida terror network and America's war against terrorism. ETA and Spain's Revolutionary Armed Forces of Colombia, the Liberation Tigers in Sri Lanka, the IRA and UFF in Northern Ireland, the Shining Path in Peru. This new edition includes fully updated chapters on Palestine and Israel, the London 7/7 bombings and a new chapter on Jihad as well as a focus on issues of contemporary concern such as state terrorism, terrorist withdrawal and deradicalisation and human rights.

The Global History of Childhood Reader Heidi Morrison, 2013-03-05 The Global History of Childhood Reader provides an essential collection of chapters and articles on the global history of childhood. The Reader is structured thematically so as to provide both a representative sampling of the historiography as well as an overview of the key issues of the field such as childhood as a social construct, commonalities and differences globally and why the twentieth century was not the century of the child for most of the world's children. The Reader is divided into four parts: Theories and methodologies of the history of childhood; Constructions of childhood in different times and places; Children's experiences in different times and places; Usage of the past to articulate solutions to problems facing children today. Topics covered include theories and methodologies in the global history of childhood; sources for writing a global history of childhood; education, gender, disability, race, class and religion; the individual in history and emotions; violence, labour and illiteracy. With introductions that contextualize each of the four parts and the articles, further reading sections and questions, this is the perfect guide for all students of the history of childhood.
