Davis,Alicia Cerezo Paredes,2016-12-14 The fraught tension between science and religion has loomed large in scholarship about the nineteenth century in Spain especially given the prominence of the Catholic Church and the discoveries made by Wallace and Darwin The struggle for epistemological superiority between these two discourses science and religion has served to overshadow certain corners of the cultural landscape that though prominent sites of intellectual exploration in their day have received comparatively less scholarly attention until recently Fringe Discourses brings together a group of essays that seeks to restore a sense of the epistemological richness of nineteenth century Spain By exploring the relationship between epistemology modernity and subjectivity these essays recover significant efforts by Spanish authors and intellectuals to explain human nature and their world which seemed to be changing so radically before their eyes In doing so the essays also reveal just how elastic the relationship was between science and pseudoscience genius and quackery Offering a veritable Wunderkammer the authors collected here train their sights both on curious fields of study from pogonolgy the science of beards to Spiritualism and curioser people from a government spy on undercover assignment in Morocco dressed as a Moorish prince to a hypnotic huckster who dupes the queen regent With other authors focusing on science fiction dystopias mystical journeys and anatomical symbology Fringe Discourses reveals the Spanish nineteenth century for the intellectual Wild West it was      **Dragonflies** Anthony Caine,2025-03-25 Inspired by his zoom call with Kundera Dostoevsky Borges Hemingway and Joyce Carol Oates the author embarks on a literary journey in search of personal revalidation after his recent divorce The journey takes form in a sequence of 20 short stories sometimes solitary others often interconnected Together they take the reader on a tour of magical realism encountering a spectrum of characters such as Mr Bojangles Sancho Panza Bartholomew Columbus Dante s Beatrice Gabriel Marquez s Macondo Family and many others all brilliantly remembered in this text It is left to the reader to interpret where the dragonflies are flying in the midst of this journey Educated as an architect and engineer Anthony Caine is an American living in Prague Czech

*Ashes* ... Stefan Żeromski, 1928 Shows the unsightly side of the Habsburg Empire It is a declaration of disagreement with idealization of the Austrian partition and the model of state management used in its territory From the postcolonial point of view it is a novel about people and territories forced in spite of bloody resistance to become the periphery of an empire The Old Republic of Poland was not a glorious metropolis but it was still a metropolis Colonization transformed and divided this metropolis into provinces of three empires with all the consequences that a transformation of this kind brings The so called Polish Sarmatism from which the heroes of *Ashes* derive endowed citizens of Sarmatian Poland with a sense of self worth and liberty Austrian colonization destroyed their liberty and compelled the Poles to serve the interests of their conquerors *Ashes* is a narrative of the Sarmatian culture that survived among the nobility with pedigrees and estates and was also potentially present among smallholders with no pedigree and no assets The novel suggests that it is not necessary to be a noble to possess the sense of liberty that the Republic of Poland developed and cultivated The New Republic Herbert David Croly, 1928 The Saturday Review of Politics, Literature, Science, Art, and Finance, 1929 **The Wilson Bulletin**, 1929
