Conceptual Realism and Historicity: Brandom versus Hegel Norman Schultz, 2024-12-23 A persistent challenge in philosophy is constructing an explicit link between mind and external reality. In this regard, this book introduces and examines two opposing philosophies. It scrutinizes Brandom's inferentialist solution, encompassing his influential work *Making It Explicit* 1994, and his controversial interpretation of Hegel as a conceptual realist in *A Spirit of Trust* 2019. Contrastingly, it introduces Hegel's relativist historicism, arguing that a robust epistemological framework does not necessitate an explicit link to mind-independent reality. By confining knowledge to its historical context, it prevents adherence to false beliefs, maintaining openness for truth to emerge one day.
