## Nba Preseason Usa:

**The Business of Sports** Dennis R. Howard, Brad R. Humphreys, 2008-06-30 The sports industry is large, visible and growing and it has a huge impact on society. That's obvious to die-hard fans who not only watch sporting events but buy everything from balls to ties to paperweights with their favorite team's logo. But even sports haters can't escape the onslaught of professional sports. They are asked to chip in as taxpayers to build public stadiums and their children are like it or not exposed to events sponsored by alcohol and tobacco companies not to mention the juvenile antics of star athletes. Businesses of course take a hit in productivity when the Olympics or World Series or Super Bowl or World Cup rolls around. Yet most of us love to watch and play. *The Business of Sports* takes on this endlessly fascinating behemoth of an industry to make sense of it all. Yes, sports is big business. How big? Estimates of total annual U.S. spending on sporting goods and services range from 250 to 560 billion a year and spending related to organized sport alone has been estimated at 200 billion per year. And it's getting bigger, casting an ever larger shadow over the entire globe. *The Business of Sports* throws light on the subject by exploring the business and economic dynamics of the industry from a diverse array of perspectives that cover the industry's macroeconomic management and marketing/promotion issues. Volume 1, *Perspectives on the Sports Industry*, documents the current size, scope and magnitude of the sports industry in the U.S. and abroad, including the U.K. and China. It also examines the importance of the world's most visible sporting events like the Olympics and the impact of sporting events broadcast around the world. Volume 2, *Economic Perspectives on Sport*, takes an in-depth look at the sports industry from an economic perspective. The volume delves into the inner workings of leagues and teams, covering economic issues from the design of sports leagues to franchise financial valuations to salary caps to labor relations. Volume 3, *Bridging Research and Practice*, fills the gap between scholarly research on sport and practitioners working in the industry. Topics include evaluating talent, maintaining managerial efficiency, analyzing statistical performance indices and assessing the noneconomic benefits of professional sports. Business and sports are a potent mix of two of the strongest forces moving our society today. And as the stratospheric salaries of professional athletes indicate, the industry is going through major growth and change. To make sense of it all, it helps to understand the underlying economic principles driving the business decisions made daily by owners and managers in all corners of the world. The unique multivolume format of *The Business of Sports* allows sports nuts, journalists, business people and students to explore the wide variety of issues that fuel the world's crazy passion for all things athletic.

Focus On: 100 Most Popular United States Men's National Basketball Team Players Wikipedia contributors, **The Comprehensive Guide to Careers in Sports** Glenn Wong, 2009 As more students enter the growing field of sports management, there is a greater need for information informing them about their career choices. *Careers in Sports* provides an overview of what students should consider and expect from the varied career options available to them. This book answers the questions students are most likely to have, including what courses they should take, what areas are available to them, what

salary can they expect to earn after graduation and how they can get the job of their dreams In the highly competitive field of sports management it is important for individuals to prepare themselves well and to make the right decisions along the way Although there are no guarantees of success this book will increase students likelihood of finding success in the sports industry Encouraging research and realistic expectations this book has been developed by an author with many years of experience as a respected practitioner teacher and internship coordinator
