## **Reddit Today:**

*Facebook Nation* Newton Lee, 2012-09-15 President Barack Obama in his 2011 State of the Union Address called America the nation of Edison and the Wright brothers and of Google and Facebook U S Chief Information Officer Steven VanRoekel said that America has become a Facebook nation that demands increased transparency and interactivity from the federal government Facebook as a nation in 2012 would be the third largest country in the world with over 900 million citizens after China and India This book portrays the social media ecosystem as a world of increasing Total Information Awareness which is essentially a civilian version of the controversial Total Information Awareness program unveiled in 2002 by the Defense Advanced Research Projects Agency DARPA at the U S Department of Defense Back in the 60 s DARPA initiated and funded the research and development of Advanced Research Projects Agency Network ARPANET that went online in 1969 The success of ARPANET gave rise to the global commercial Internet in the 90 s and the new generation of Fortune 500 companies today including Amazon.com, Google, eBay, and Yahoo. As if life comes full circle in the 21st century private businesses and the ubiquity of social networks such as Facebook, Google, Twitter, and YouTube are creating the technologies and infrastructures necessary for the DARPA proposed Total Information Awareness program. WikiLeaks founder Julian Assange called Facebook the most appalling spying machine that has ever been invented. Indeed military and civilian technologies have interwoven into every fabric of our society as Facebook co-founder and CEO Mark Zuckerberg said. We exist at the intersection of technology and social issues. This book offers discourse and practical advice on the privacy issue in the age of big data, the rise of Facebook nation and Total Information Awareness. Opening with President Ronald Reagan's 1984 National Security Decision Directive and ending with George Orwell's novel 1984, the author takes us on a roller coaster ride through Facebook's botched IPO, Carrier IQ, Kony 2012, SOPA, PIPA, blackout, cyber bullying, crime fighting and a host of other timely issues facing our Facebook nation. Social media strategists, information architects, social scientists, policymakers and academic scholars in the Program in Science Technology and Society STS will find this book a valuable asset.

**The Hidden Psychology of Social Networks: How Brands Create Authentic Engagement by Understanding What Motivates Us** Joe Federer, 2020-09-15 From the former Head of Brand

Strategy at Reddit comes a proven and thought provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy and psychology as well as more than a decade of hands on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets. Platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. *Fascinating and deeply compelling, The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative and, in the end, deliver more effective marketing that provides value.

*Say Hello* Carly Findlay, 2019-02-01. A forthright, honest and rousing, triumphant memoir from a woman who has to live with a highly visible, different appearance due to a rare skin condition. *Say hello to Carly*. In fairytales, the characters who look different are often cast as the villain or monsters. It's only when they shed their unconventional skin that they are seen as good or less frightening. There are very few stories where the character that looks different is the hero of the story. I've been the hero of my story, telling it on my own terms, proud about my facial difference and disability, not wanting a cure for my rare, severe and sometimes confronting skin condition, and knowing that I am beautiful even though I don't have beauty privilege. This honest, outspoken and thought provoking memoir by award winning writer and appearance activist Carly Findlay will challenge all your assumptions and beliefs about what it is like to have a visibly different appearance. Carly lives with a rare skin condition, Ichthyosis, and what she faces every day, and what she has to live with, will have you cheering for her and her courage and irrepressible spirit. This is both a moving memoir and a proud manifesto on disability and appearance diversity issues. Believe the hype by turns frank, funny and fearsome. Findlay's extraordinary memoir is an early contender for 2019's best Australian non fiction, a powerful and moving invitation to examine the structures of privilege and dehumanisation that we so desperately need to address in this country. *Better Read Than Dead*. A proud celebration of appearance difference, a valuable read. Herald Sun. **Defiant, unsettling and thought provoking**.
