**Avenues of Translation** Regina Galasso,Evelyn Scaramella,2019-04-15 Winner of the 2020 SAMLA Studies Book Award Edited Collection Cities both near and far communicate in a variety of ways Travel between through and among urban centers initiates contact and cities themselves are sites of ever changing cultural and historical encounters Predictable and surprising challenges and opportunities arise when city borders are crossed voices meet and artistic traditions find their counterparts Using the Latin word for translation *translatio* or to carry across as a point of departure Avenues of Translation explores how translation perpetuates diversifies deepens and expands the literary production of cities in their greater cultural context and how translation shapes an understanding of and access to a city s past and present literary and cultural practices Thinking about translation and the city is a way to tell the backstories of the cities texts and authors that are united by acts of translation Published by Bucknell University Press Distributed worldwide by Rutgers University Press

*Translation and the Global City* Judith Weisz Woodsworth,2021-09-26 Translation and the Global City showcases fresh perspectives on translation in a global context drawing on case studies from Montreal and other multilingual cosmopolitan cities to examine the historical sociological and cultural factors underpinning the travel of languages ideas and cultures across borders Building on the spatial turn in translation studies the book adopts a bridge metaphor to explore the complexities of translational spaces and the ways in which translation acts can both unite and divide in the global city The

collection initiates the discussion with a focus on the Canadian context and specifically the city of Montreal where historical circumstances public policy and shifting language politics have led to a burgeoning translation industry It goes on to address issues of translation in other regions and cities of the world generating new insights and opening avenues for further research into the relations between languages and cultures This volume will be of particular interest to students and scholars in translation studies especially those with an interest in translation theory and the sociology of translation

**Equivocal City** Patrick Coleman, 2018-10-30 The study of Montreal as a specific location in French and English writings has long been subordinated to the demands of linguistically divided and politically contentious narratives about national development In this cross linguistic study Patrick Coleman models an inclusive and post national literary history of the city itself Tracing a sequence of moments in the emergence of the Montreal novel from World War II to the turbulent 1960s Equivocal City offers close readings of fourteen key works of fiction focusing on the inner dynamic of their construction as well as the unexpected convergences and contrasts in the narrative structures they adopt and the aesthetic perspective they seek to achieve Critically sophisticated but accessibly written this book gives a sympathetic account of how writers in both languages struggled to give integrated artistic expression to their experience of a city that was still linguistically compartmentalized and culturally insecure By analyzing the interplay between story and narrative form the book explores what French and English novelists could and could not imagine about the Montreal they sought to portray From the responsible realism of Hugh MacLennan and Gabrielle Roy to the fractious phantasmagorias of Jacques Ferron and Leonard Cohen Equivocal City traces the evolution of the Montreal novel with the aim of retrieving a shareable literary past

**Expanding World** Michael Cronin, 2012-02-24 Are we really living in a shrinking world Is it true that diversity is on the decline everywhere Are we condemned to live on a planet without difference or hope The Expanding World challenges the basic notion of a shrinking world in current debates around globalization and argues that it informs ways of thinking and doing which are deeply damaging to the emergence of a progressive politics The work proposes instead a new kind of politics based on a notion of an expanding rather than a shrinking world This implies a different way of looking at the world and a different way of doing politics The Expanding World is fundamentally about looking more closely at what is around us and acting on that knowledge It is about considering what it means to have whole worlds reflected in the looking glass of local inquiry Cronin challenges the prevailing culture of disenchantment by highlighting the inexhaustible variety and richness of the planet and how that variety and richness can become the basis of new forms of emancipatory politics

*Neither Here Nor There* Christopher Bolander,2009-10 From the beginning Montréal has played a significant role in French writing of North America While it is relatively easy to find novels to support the idea of Montréal as the center of the French Canadian universe a more interesting challenge has been to examine the ways in which writers avoid the city sometimes even effacing a character's and perhaps their own montréal in the process In this book I examine the various roles of Montréal as agent setting allegory theme character trope in a wide range of novels and short stories I reveal how Montréal's topography serves to offset the notion of a uniform citizenry while simultaneously reinforcing class differences I also reject the traditional rural urban rivalry by examining texts that draw attention to a failed romanticized view of rurality yet

highlight the fact that Montréal's urban egocentrism can be considered no less an idealized view of society. Perhaps the most valuable inquiry into the literature of Montréal found in the book is the subversion of the monolithic and homogeneous image of the city by detailing individual particularities which reflect the diversity of Montréal's various neighborhoods.
