Translation and Violent Conflict Moira Inghilleri, Sue-Ann Harding, 2010-01-30 First Published in 2010 Translators and interpreters are frequently found at the centre of attempts to wage war or negotiate peace between opposing factions Translation and interpreting also serve a vital function in communicating a conflict locally and globally as interested parties attempt to legitimize their actions appeal for

assistance and enlist support for their cause and the condemnation of their stated enemy The unavoidable independent exercises of judgement that interpreters and translators make through their participation in or re narration of a conflict and the decisions that go with them provide clear and strong evidence for the lead role in the construction of meanings and identities that interpreters and translators assume in situations of conflict irrespective of their historical or geopolitical setting This special issue of *The Translator* explores the role of translators and interpreters in a number of conflicts from the 20th century to the present Drawing on fictional and non fictional texts legal and peacekeeping settings and reports from war zones contributors to this volume explore the overlapping themes of mediation agency and ethics in relation to translators and interpreters as they negotiate the political social cultural linguistic and ethical factors that converge often dangerously in situations of armed conflict

Aspects of meaning-making through translation Sidiropoulou Maria, Hatzidaki Anna, Kefala Stavroula, Gogonas Nikos, Korda Diamantoula, Lavidas Nikolaos, Gioti Ioanna, 2025-05-07 The book addresses an audience with no prior knowledge of the intricacies of translation practice and allows a rather pervasive view into issues arising in the study of translation It shows how the study of translation may capture a reader's attention and what scholarly issues it may give rise to It tackles systemic functional cognitive and societal aspects of the transfer phenomenon between English and Greek from both a synchronic and a diachronic perspective It starts with pragmatic perspectives of meaning making moves to cognitive aspects of translation and interpreting goes on with aspects of tourism translation and globalization and ends up with diachronic perspectives to gender in translation and diachronic aspects of the history of translation in the West It is a collaborative work of the translation team of the Department of English Language and Literature National and Kapodistrian University of Athens and owes a lot to insights gained by the authors' interaction with undergraduate and postgraduate translation students of the Department which is always insightful and productive

Humour Translation in the Age of Multimedia Margherita Dore, 2020-11-02 This volume seeks to investigate how humour translation has developed since the beginning of the 21st century focusing in particular on new ways of communication The authors drawn from a range of countries cultures and academic traditions address and debate how today's globalised communication media and new technologies are influencing and shaping the translation of humour Examining both how humour translation exploits new means of communication and how the processes of humour translation may be challenged and enhanced by technologies the chapters cover theoretical foundations and implications and methodological practices and challenges They include a description of current research or practice and comments on possible future developments The contributions interconnect around the issue of humour creation and translation in the 21st century which can truly be labelled as the age of multimedia Accessible and engaging this is essential reading for advanced students and researchers in Translation Studies and Humour Studies

web isotopes are elements with the same atomic number but distinct mass numbers isobars are elements with various atomic numbers but the same mass number an example of two isotopes and isobars is nickel and iron

isobars definition examples uses byju s - Feb 27 2022

web solution isobars isobars are atoms of different elements with different atomic numbers but have the same mass number electronic configurations of isobars differ examples of isobars argon ar 18 40 potassium k 19 40 and calcium ca 20 40 are examples of isobars

isotopes and isobars definition uses and difference teachoo - Jan 09 2023

web may 29 2023 what are isotopes atoms of same element which have different mass number but same atomic number example 1 hydrogen element has 3 isotopes protium deuterium tritium difference between different isotopes of hydrogen protium deuterium tritium it has an atomic number 1 and mass number 1 it

define isobar give an example toppr - Dec 28 2021

web question define isobar give an example medium solution verified by toppr isobars are the atoms of different elements having a different atomic number but the same mass number example 18 ar 40 20 ca 40 solve any question of structure of atom with patterns of problems was this answer helpful 0 0 similar questions explain isobar with examples

difference between isotopes and isobars definition properties - Dec 08 2022

web jul 27 2017 difference between isotopes and isobars definition isotopes isotopes are different atomic structures of the same element isobars isobars are chemical elements having the same atomic mass atomic number isotopes the atomic numbers of isotopes are equal to each other isobars the atomic numbers of isobars are different

difference between isotopes and isobars examples uses - Mar 31 2022

web sep 14 2023 example of isotopes hydrogen has 3 isotopes namely protium 1 h 1 deuterium 1 h 2 tritium 1 h 3 example of isobars argon 18 ar 40 potassium 19 k 40 and calcium 20 ca 40 have the same atomic mass read more isotopes of hydrogen

atomic number isotopes and isobars definition examples and - Feb 10 2023

web the atoms having the same atomic number but different mass number are called isotopes to learn more about the atomic number isotopes and isobars its definition examples and faqs visit byju s for more content

define isobars and explain the difference between isotopes and isobars - Jun 02 2022

web an example of isotopes is the element hydrogen which has three isotopes tritium deuterium and protium 40 s and 40 ar are isobars as both of them have the same atomic mass an example of isotopes is the element nitrogen which has two isotopes which include nitrogen 14 and nitrogen 15

isotopes isobars isotones definition examples diagrams - May 13 2023

web definition isotopes the atoms belonging to the same element having same atomic number z but different mass number a are called isotopes for example carbon 12 carbon 13 and carbon 14 are three isotopes of the element carbon with mass numbers 12 13 and 14 respectively revise with concepts atomic masses and composition of nucleus

isotope examples definition britannica - Apr 12 2023

web aug 31 2023 the three share the place in the periodic table assigned to atomic number 1 and hence are called isotopes from the greek isos meaning same and topos signifying place of hydrogen many important properties of an isotope depend on its mass

isotopes isobars and isotones easy definition and examples - Oct 06 2022

web aug 16 2022 isotones atoms of different elements which have the same number of neutrons but different atomic numbers are called isotones in a general word the elements must have a same number of protons but different numbers of protons to be isotones isotones examples 614 c 715 n 916 o difference between isotopes and isobars and

understanding of isotopes isobars isotones unacademy - May 01 2022

web isotopes isobars and isotones are atoms with the same number of protons but different numbers of neutrons isobars are atoms of different chemical elements with equal atomic mass values whereas isotones are atoms of different chemical elements with an equal number of neutrons in the atomic nucleus

isotopes and isobars difference between isotopes and isobars - Jul 15 2023

web isobar are elements that differ in chemical properties but have the same physical property so we can say that isobars are those elements that have a different atomic number but the same mass number in contrast isotopes are those elements having the same atomic number and different mass numbers

isotopes and isobars explanation example uses and faqs - Jun 14 2023

web sep 13 2023 an example of two isotopes and isobars is nickel and iron these both have the same mass number which is 58 whereas the atomic number of nickel is 28 and the atomic number of iron is 26 let us consider an example of 2 things which appear to be the same in colour and in their physical appearance such that we cannot distinguish

isotope meaning what are isotopes definition and examples - Jul 03 2022

web isotope meaning what are isotopes isotopes can be defined as the variants of chemical elements that possess the same number of protons and electrons but a different number of neutrons

[isobar nuclide wikipedia](#) - Aug 04 2022

web isobars are atoms nuclides of different chemical elements that have the same number of nucleons correspondingly

isobars differ in atomic number or number of protons but have the same mass number an example of a series

isobars definition difference with isotopes videos and solved - Mar 11 2023

web isotope isobar isotopes are atomic structures of same elements having a different mass number atomic mass isobars are

different chemical elements having same atomic mass atomic numbers of all isotopic forms of a single element are equal

atomic numbers of isobars vary from each other they are the same chemical element but their forms are

explain isotopes and isobars with examples - Nov 07 2022

web solution verified by toppr isotopes same atomic number but different mass number example c 12 c 14 isobars isobars are

atoms of different elements having same mass number these have equal number of nucleons but different number of protons
