Translation Of Childrens Literature Topics In Translation:

The Translation of Children's Literature Gillian Lathey, 2006-01-01 In the last few decades a number of European scholars have paid an increasing amount of attention to children's literature in translation. This book not only provides a synthetic account of what has been achieved in the field but also makes us fully aware of all the textual, visual and cultural complexities that translating for children entails. Students of this subject have had problems in finding a book that attempted an up to date and comprehensive review of the field. Gillian Lathey's Reader does just this. Dr Piotr Kuhiwczak, Director, Centre for Translation and Comparative Cultural Studies, University of Warwick.

Translating Children's Literature Gillian Lathey, 2015-07-24 Translating Children's Literature is an exploration of the many developmental and linguistic issues related to writing and translating for children, an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence. Lathey looks at a broad range of children's literature from prose fiction to poetry and picture books. Each of the seven chapters addresses a different aspect of translation for children, covering Narrative style and the challenges of translating the child's voice, The translation of cultural markers for young readers, Translation of the modern picture book, Dialogue, dialect and street language in modern children's literature, Read aloud qualities, wordplay, onomatopoeia and the translation of children's poetry, Retranslation, retelling and reworking, The role of translation for children within the global publishing and translation industries. This is the first practical guide to address all aspects of translating children's literature, featuring extracts from commentaries and interviews with published translators of children's literature as well as examples and case studies across a range of languages and texts. Each chapter includes a set of questions and exercises for students. Translating Children's Literature is essential reading for professional translators, researchers and students on courses in translation studies or children's literature.

Children's Literature in Translation Jan Van Coillie, Walter P. Verschueren, 2014-07-16 Children's classics from Alice in Wonderland to the works of Astrid Lindgren, Roald Dahl, J. K. Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than serious adult literature. This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges. A variety of translation theories and concepts are put to critical use, including Even-Zohar's polysystem theory, Toury's concept of norms, Venuti's views on foreignizing and domesticating translations and on the translator's visibility, and Chesterman's prototypical approach. Topics include the ethics of translating for children, the importance of childhood images, the revelation of the translator in prefaces, the role of translated children's books in the establishment of literary canons, the status of translations in the former East Germany, questions of taboo and censorship in the translation of adolescent novels, the collision of norms in different translations of a Swedish children's classic, the handling of cultural intertextuality in the Spanish translations of contemporary British fantasy books, strategies for

translating cultural markers such as juvenile expressions functional shifts caused by different translation strategies dealing with character names and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's *Haroun and the Sea of Stories* **Translating Children's Literature** Gillian Lathey, 2015-07-24 *Translating Children's Literature* is an exploration of the many developmental and linguistic issues related to writing and translating for children an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence Lathey looks at a broad range of children's literature from prose fiction to poetry and picture books Each of the seven chapters addresses a different aspect of translation for children covering Narrative style and the challenges of translating the child's voice The translation of cultural markers for young readers Translation of the modern picture book Dialogue dialect and street language in modern children's literature Read aloud qualities wordplay onomatopoeia and the translation of children's poetry Retranslation retelling and reworking The role of translation for children within the global publishing and translation industries This is the first practical guide to address all aspects of translating children's literature featuring extracts from commentaries and interviews with published translators of children's literature as well as examples and case studies across a range of languages and texts Each chapter includes a set of questions and exercises for students *Translating Children's Literature* is essential reading for professional translators researchers and students on courses in translation studies or children's literature **The Routledge Handbook of Translation and Young Audiences** Michał Borodo, Jorge Díaz-Cintas, 2025-01-31 *The Routledge Handbook of Translation and Young Audiences* offers a comprehensive overview of translation in the context of young audiences The handbook synthesises research on translation of children's and young adult literature audiovisual translation the translation of comics and picture books empirical research methods and translation performed by fan communities in the digital world Adopting a forward looking approach it is organised around these five key themes which taken together propose a new way of looking at interrelated phenomena which have never been brought together before to map this emerging area of study Featuring 35 contributions from leading and emerging scholars the volume showcases a range of perspectives which focus on translation and cultural practices around children and young adults not only as readers viewers and consumers but also as prosumers and collaborative creators of content Providing a multi layered perspective on the study of translation and young audiences this handbook will be a valuable resource for students and scholars in translation studies particularly those interested in audiovisual translation media translation multimodal texts and children's literature **Mediating Practices in Translating Children's Literature** Joanna Dybiec-Gajer, Agnieszka Gicala, 2020-12-08 The goal of the book is to investigate mediating practices used in translation of children's and young adults fiction focusing on transfer of contents considered controversial or unsuitable for young audiences It shows how the macabre and cruelty swear words and bioethical issues have been affected in translation across cultures and times Analysing selected key texts from Grimms tales and Hoffmann's

Struwwelpeter to Roald Dahl's fiction it shows that mediating approaches sometimes infringing upon the integrity of source texts are still part of contemporary translation practices The volume includes contributions of renowned TS scholars and practitioners working with a variety of approaches from descriptive translation studies and literary criticism to translation pedagogy and museum studies The angle of looking into the topics is fresh and acute and I whole heartedly recommend the book for readers from scholars to parents and school teachers for all adults taking a special interest in and cherishing children and their literature Riitta Oittinen Tampere University Finland

Translating for Children Riitta Oittinen, 2002-06-01

Translating for Children is not a book on translations of children's literature but a book on translating for children It concentrates on human action in translation and focuses on the translator the translation process and translating for children in particular Translators bring to the translation their cultural heritage their reading experience and in the case of children's books their image of childhood and their own child image In so doing they enter into a dialogic relationship that ultimately involves readers the author the illustrator the translator and the publisher What makes *Translating for Children* unique is the special attention it pays to issues like the illustrations of stories the performance like reading aloud of the books in translation and the problem of adaptation It demonstrates how translation and its context takes precedence can take over efforts to discover and reproduce the original author's intentions Rather than the authority of the author the book concentrates on the intentions of the readers of a book in translation both the translator and the target language readers

International Companion Encyclopedia of Children's Literature Peter Hunt, 2004-08-02 Children's publishing is a huge international industry and there is ever growing interest from researchers and students in the genre as cultural object of study and tool for education and socialization

Ideological Manipulation of Children's Literature Through Translation and Rewriting Vanessa Leonardi, 2020-07-06 This book explores the topic of ideological manipulation in the translation of children's literature by addressing several crucial questions including how target language norms and conventions affect the quality of a translation how translations are selected on the basis of what is culturally accepted who is involved in the selection of what should be translated for children in the target culture and how this process takes place The author presents different ways of looking at the translation of children's books focusing particularly on the practices of intralingual and interlingual translations as a form of rewriting across a selection of European languages This book will be of interest to Translation Studies and children's literature scholars as well as those with a wider interest in the impact of ideology on culture

Translation Studies and Children's Literature, 2017

Cultural Encounters in Translated Children's Literature Helen Frank, 2014-04-08 *Cultural Encounters in Translated Children's Literature* offers a detailed and innovative

model of analysis for examining the complexities of translating children's literature and sheds light on the interpretive choices at work in moving texts from one culture to another. The core of the study addresses the issue of how images of a nation, locale or country are constructed in translated children's literature with the translation of Australian children's fiction into French serving as a case study. Issues examined include the selection of books for translation, the relationship between children's books and the national and international publishing industry, the packaging of translations and the importance of titles, blurbs and covers, the linguistic and stylistic features specific to translating for children, intertextual references, the function of the translation in the target culture, didactic and pedagogical aims, euphemistic language and explicitation and literariness in translated texts. The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback, the antipodes, the exotic, the wild, the unknown, the void, the end of the world, the young and innocent nation and the Far West. Contemporary signifiers that construct Australia as urban, multicultural, Aboriginal, worldly and inharmonious are seriously under-represented. The study also shows that French translations are conventional, conservative and didactic, showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean, rural, exoticism. The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu, especially through translated children's literature.

Literary Translation Clifford E. Landers, 2001-01-01. In this book both beginning and experienced translators will find pragmatic techniques for dealing with problems of literary translation whatever the original language. Certain challenges and certain themes recur in translation whatever the language pair. This guide proposes to help the translator navigate through them.

English Translations of Korczak's Children's Fiction Michał Borodo, 2020-02-22. This book investigates major linguistic transformations in the translation of children's literature focusing on the English language translations of Janusz Korczak, a Polish Jewish children's writer known for his innovative pedagogical methods as the head of a Warsaw orphanage for Jewish children in pre-war Poland. The author outlines fourteen tendencies in translated children's literature including mitigation, simplification, stylization, hyperbolization, cultural assimilation and fairy-talization in order to analyse various translations of *King Matt the First*, *Big Business Billy* and *Kaytek the Wizard*. The author then addresses the translators' treatment of racial issues based on the socio-cultural context. The book will be of use to students and researchers in the field of translation studies and researchers interested in children's literature or Janusz Korczak.

Whose Story? Translating the Verbal and the Visual in Literature for Young Readers Riitta Oittinen, 2009-03-26. This book is based on the discussions carried out in two seminars on the translation of children's literature coordinated by Maria Gonz lez Davies and led by Riitta Oittinen. The main focus finally revolved around four questions: a) Tackling the challenges posed by translating children's literature both picturebooks and books with illustrations and the range of strategies available to solve specific issues b) the special

characteristics involved in reading aloud its emotional dimension and the sphere it occupies between private and public reading c the interpretation and manipulation of child images and d the role of the translator publishers and mediators as active or passive agents whose decisions may finally mirror the images projected by the authors of the source books This volume is also professionally oriented and presents examples that underline the interaction between theory and practice The topics range from Bible translation to translating the classics such as Beatrix Potter's tales and fairytales fantasy worlds for young adults as depicted in Tolkien's *The Lord of the Rings* or novels such as those by Christine Nostlinger as well as stories with a psychological and social function such as the African war tales Finally it includes didactic applications that help enhance an awareness of the issues involved

Adult vs. Children's Literature Translation Dörte Schabsky, 2013-01-16
Essay from the year 2012 in the subject Interpreting Translating grade A 70% City University London School of Arts language English abstract In her dissertation Thomson Wohlgemuth argues that there seems to be agreement that the translation problems in texts for adults and for children are essentially the same they can be described using the same concepts and can be arranged in the same categories 1998 p 36 However there are a lot of specific translation problems in children's literature translation which could of course be grouped in broad categories which also contain similar problems concerning adult texts translation but which have to be handled quite differently due to target group specific considerations The following essay will argue this point choosing from a huge range three exemplary categories comprising specific children's literature translation problems

Linguistics and Language Behavior Abstracts ,2004 Translating Expressive Language in Children's Literature B. J. Epstein, 2012 Children's literature delights in made up words nonsensical terms and creative nicknames but how do you translate these expressions into another language This book provides a new approach to translation studies to address the challenges of translating children's literature It focuses on expressive language nonsense names idioms allusions puns and dialects and provides guidance for translators about how to translate such linguistic features without making assumptions about the reader's capabilities and without drastically changing the work The text features effective strategies for both experienced translators and those who are new to the field including exercises and discussion questions that are particularly beneficial for students training to be translators This learner friendly book also offers original contributions to translation theory in light of the translation issues particular to children's literature
