**Ulrich's International Periodicals Directory** Carolyn Farquhar Ulrich, 1999 *The Cluster Organization* Anna Maria Lis, Adrian Lis, 2021-02-22 Cluster organizations are becoming more and more popular both in developing and developed countries Considering the development of cluster policy and the related dynamic growth of cluster initiatives in the world the lack of sufficient knowledge on the development of cooperation in cluster organizations inhibits their development and in many cases causes their complete disintegration The book provides new important elements to the current system of knowledge filling in cognitive and research gaps in the scientific literature on problems related to cooperation in cluster organizations The most valuable features for the reader concern the epistemological methodological and application aspects The new element includes a theoretical concept which refers to the trajectory of development of

cooperative relationships in cluster organizations that facilitates the understanding and explanation of mechanisms responsible for cooperation in such organizations The concept also has great practical advantages especially for people implementing the idea of clustering coordinators facilitators and members of cluster organizations as well as politicians and public authorities are responsible for shaping and implementing the cluster policy It will be of value to researchers academics and students in fields with an interest in organizational studies management of innovation and technology strategic management industrial economics and economic geography      **Law and Legal Information Directory** ,1983
