The Materiality of Magic Ceri Houlbrook, Natalie Armitage, 2015-12-31 The subject of magic has long been considered peripheral and sensationalist the word itself having become something of an academic taboo However beliefs in magic and the rituals that surround them are extensive as are their material manifestations and to avoid them is to ignore a prevalent aspect of cultures worldwide from prehistory to the present day The Materiality of Magic addresses the value of the material record as a resource in investigations into magic ritual practices and popular beliefs The chronological and geographic focuses of the papers presented here vary from prehistory to the present day including numinous interpretations of fossils and ritual deposits in Bronze Age Europe apotropaic devices in Roman and Medieval Britain the evolution of superstitions and ritual customs from the voodoo doll of Europe and Africa to a Scottish wishing tree and an exploration of spatiality in West African healing practices The objectives of this collection of nine papers are twofold First to provide a platform from which to showcase

innovative research and theoretical approaches in a subject which has largely been neglected within archaeology and related disciplines and secondly to redress this neglect The papers were presented at the 2012 Theoretical Archaeology Group TAG conference in Liverpool

The Consistent Consumer Ken Beller,Louis Patler,Steve M. Weiss,2005 Behavior based demography is yesterday s news Value population demography profiles consumers based on consistent and lasting values not constantly changing past behaviors Current demographic trends confirm we are entering an era characterized by the most generationally and ethnically diverse consumer groups in American history Business marketing and sales professionals must understand what influences these segmented populations and how to best position products and services to these groups for immediate and lasting profit For several decades conventionally driven market research has emphasized age based generations like the baby boomers Gen X Gen Y and millennials which are based on 20 year maturation cycles or booms and busts in birth rates However none of these studies has ever delved into the historical and cultural conditions that shape the lasting values and ultimately the consistent buying decisions of these groups rich insights and dozens of ideas that can be applied to pressing business situations including ways to help organizations Increase sales by understanding what consistently drives consumer spending decisions Enhance market share by speaking to shared values and not just past actions Gain greater return on investment by targeting lifelong values and increasing customer loyalty Motivate groups more effectively with customized messages Avoid alienating some groups while motivating others Marketers will learn to brand products and services at a much deeper and more lasting level Salespeople will understand how to develop strong selling relationships with high potential customers And corporate strategists will learn to identify and evaluate emerging trends that will become lucrative market opportunities
