**The NEW Employee Manual** Benjamin Gilad, PhD, Mark Chussil, 2019-03-19 Welcome to Corporate Life The NEW Employee Manual is not your Dad's or Mom's employee manual. It's the new playbook for corporate survival fitting today's realities and the challenges facing employees who join or work in large seemingly successful companies. Those companies already issued very specific and detailed employee manuals covering everything under the sun except how to compete well in our brave new world. The NEW Employee Manual will help you navigate the Corporate with a capital C labyrinth. Where Corporate's manual shapes you into a dutiful cog for the good of the machine ours helps you enhance your career for the good of well you and your company. The NEW Employee Manual should make you feel skeptical, skeptical of empty slogans, obsolete rituals, obsessive pursuits, and bigwigs playbooks that no longer work. That alone should be worth this book's price. Skepticism you see is a good thing because it is only the skeptic, only the free thinker, only the maverick who asks new questions and finds useful answers. So are you a maverick or a cog?

*The Cambridge Handbook of U.S. Labor Law for the Twenty-First Century* Richard Bales, Charlotte Garden, 2019-12-05 Over the last fifty years in the United States unions have been in deep decline while income and wealth inequality have grown. In this timely work editors Richard Bales and Charlotte Garden with a roster of thirty-five leading labor scholars analyze these trends and show how they are linked. Designed to appeal to those being introduced to the field as well as experts seeking new insights this book demonstrates how federal labor law is failing today's workers and disempowering unions, how union jobs pay better than nonunion jobs and help to increase the wages of even nonunion workers and how when union jobs vanish the wage premium also vanishes. At the same time the book offers a range of solutions from the radical such as a complete overhaul of federal labor law to the incremental including reforms that could be undertaken by federal agencies on their own.

**Sustainable Electricity** Jessica Fox, 2016-04-03 This resource is the first ever compilation of industry authored case studies on how power companies are making strides toward achieving sustainable electricity in North America. The book features recent game changing efforts, candid insider stories about challenges and process, and forecasts for the next decade of innovation. Each chapter shares topic focused case studies regarding the reality of implementing operational changes and strategies that will lead to sustainable electricity. Key technical staff and managers from top companies candidly report on failures, insights, trade offs, internal process, resulting improvements to operational efficiencies and natural resource and stakeholder benefits. Electric power company managers seeking to identify specific opportunities and understand the process for advancing sustainability in their own organizations will discover solid paths forward through potentially treacherous terrain. Educated stakeholders, agencies and regulators will benefit from the greater understanding of the reality of realizing change in the electric power industry engendered by this unique strategic resource.
