Therefore, once the market for the Apple Watch has already been defined and correspondingly analyzed, the next step will be to review what the different elements of the Apple Watch Marketing Mix are and how they interact with each other. The interaction among them shows clearly how changes and decisions made which affect to one specific area of a product's Marketing Mix produce different changes and up to what extent in the rest of the elements, demonstrating that they cannot be seen, considered, or analyzed separately but as a whole. It is clear then that only by approaching the Apple Watch Marketing Mix as a whole in which each part is irreplaceable and subordinated to Apple's
