## Netflix Prices:

Netflix Recommends Mattias Frey, 2021-10-05 Algorithmic recommender systems deployed by media companies to suggest content based on users viewing histories have inspired hopes for personalized curated media but also dire warnings of filter bubbles and media homogeneity. Curiously both proponents and detractors assume that recommender systems for choosing films and series are novel, effective and widely used. Scrutinizing the world's most subscribed streaming service Netflix this book challenges that consensus. Investigating real life users' marketing rhetoric, technical processes, business models and historical antecedents, Mattias Frey demonstrates that these choice aids are neither as revolutionary nor as alarming as their celebrants and critics maintain and neither as trusted nor as widely used. Netflix Recommends brings to light the constellations of sources that real viewers use to choose films and series in the digital age and argues that although some lament AI's hostile takeover of humanistic cultures, the thirst for filters, curators and critics is stronger than ever.

Marketing Robert W. Palmatier, Andrew Crecelius, 2025-02-20 An introduction to marketing theory and practice based around Palmatier's acclaimed first principles, this textbook provides a global perspective and an abundance of engaging case studies. Palmatier's four principles: all customers differ, all customers change, all competitors react, all resources are limited, provide a framework for understanding the diverse and idiosyncratic world of modern marketing. Whether offline or digital, B2C or B2B, products or services, domestic or international, the same principles apply. This textbook dives headfirst into marketing controversies. Unique learning features, Marketing Fail and Shades of Grey, capture the messy reality of the business world and encourage students to reflect critically on both sides of a debate. A focus on application means that a large share of the text is devoted to case studies featuring contemporary organisations such as Beyond Meat, Zoom, IKEA and the World Health Organization. The perfect textbook for introductory modules on the essentials of marketing. Marketing Based on First Principles provides a unique and dynamic approach, allowing students to develop effective and flexible methods to deal with diverse and complex problems of marketing today.
