Major,2006-02-01 SnapWords Cards are essentials for teaching sight word recognition to a wide variety of learners including visual learners children labeled with ADD or ADHD autism dyslexia or right brained learners How do they work The images

embedded into each word ensure that children gain a rich sight word vocabulary as easily as a camera snapping a picture

and storing it in memory But that s not all Beyond just recognizing the words the tools on the reverse of each card move

children past calling out words to really understanding what they mean and how to use them in sentences The reverse of

each card displays the word without a visual and describes a hand motion for the word a necessary tool for many kinesthetic

learners and children with dyslexia In addition a sentence using the word and coordinating with the visual on the front of the

card focuses children s attention on the meaning of the word and how it is used in everyday communication These images
