Excerpt from *Sixty Years of an Agitator's Life* Despite the brave homilies on virtue which abound this is a world in which a man may be too good and become an object of distrust by those who never lay themselves open to this suspicion The most misgiving reader need not be afraid of the present writer He is not too good In one of Ben Jonson's plays a servant speaks of his master as an honest gentleman who is never at leisure to be himself he has such tides of business That has been the case with the Author So much and so long occupied in vindicating the right of others to their own lives and the expression of their own reasoned opinions he has had until late years no leisure to express his own The diversified experience of the writer has been owing to a wilfulness of sympathy with all self helping efforts of improvement in the State in society and in opinion He does not belong to those unpleasant and superior persons who have faith in themselves and no faith in others who as Robert Burns found in his day take pride in showing a proper decent unnoticing disregard for the poor insignificant devils the mechanics and peasants around them although they are as much entitled to happiness as those who despise them are It is not the few who make the many but the many who make the few Those who live without solicitude for the welfare of others do but encumber the land When they die Nor earth nor sky shall yield a single tear Nor cloud shall gather more nor leaf shall fall Nor gale breathe one sigh for them for all They by their own choice stand apart from humanity and will have no claim to rise again in another world having been of no use to any one in this The Author has honour alone for those who have an outside nature and this record is mainly of movements and men having this aim or this passion About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of
