OECD Reviews of Tertiary Education Tertiary Education for the Knowledge Society Paulo Santiago, 2008-09-22 Tertiary education policy is increasingly important on national agendas. The widespread recognition that tertiary education is a major driver of economic competitiveness in an increasingly knowledge driven global economy has made high quality tertiary education more important than ever. The imperative for countries is to raise higher level employment skills to sustain a globally competitive research base and to improve knowledge dissemination to the benefit of society. Tertiary Education for the Knowledge Society provides a thorough international investigation of tertiary education policy across its many facets: governance, funding, quality assurance, equity, research and innovation, academic career links to the labour market and internationalisation. The report presents an analysis of the trends and developments in tertiary education, a synthesis of research based evidence on the impact of tertiary education policies, innovative and successful policies and practices that countries have implemented and tertiary education policy options. The report draws on the results of a major OECD review of tertiary education policy, the OECD Thematic Review of Tertiary Education conducted over the 2004-08 period in collaboration with 24 countries around the world.

Organisation for Economic Co-operation and Development, 2004-03-04 Education has been a central priority for Chile since the return of a democratic government in 1990 Thanks to a sustained economic growth and a commitment to increasing public investment in education Chile has made a number of key improvements to the education system during this period A recent reform ensures twelve years of free and compulsory schooling for all Chilean children Enrolment in secondary education has expanded rapidly and teachers salaries have increased by 140% If current trends are anything to go by more than 800 000 students will be enrolled in higher education by 2010 Chile has achieved a great deal in a short period becoming the leader in Latin America for improving the quality of and access to all levels of education Reviews of National Policies for Education Chile covers the entire system of Chilean education from pre school through tertiary education and lifelong learning for all and analyses it in terms of its economic social and political impact The review is based on the OECD s ongoing co operation with non member economies around the world It is particularly interesting for those involved in educational policy as well as professionals directly working in the education system of Chile *House of Commons - Committee of Public Accounts: Student Loan Repayments - HC 886* Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2014-02-14 There is at present around 46 billion of outstanding student loans on the Government s books and this figure is set to rise dramatically to 200 billion by 2042 in 2013 prices By 2042 there will be an estimated 6.5 million borrowers of student loans At the same time estimates for the amount of loans that will not be repaid are also rising and the Government assumes that 35-40% of outstanding loans will never be repaid That is some 16 billion to 18 billion on the current debt of 46 billion and 70 billion to 80 billion on the estimated value of student loans by 2042 The Department for Business Innovation Skills the Department is not doing enough to secure value for money from its collection arrangements The Department is unable to accurately forecast student loan repayments and does not have a sufficient understanding of the likely future cost of non repayment to the taxpayer The Student Loans Company is not doing enough to ensure that it identifies and collects all the repayments due given the substantial size of the financial assets involved and will need to demonstrate value for money from the proposed sale of the student loans book **Seven Years' Experience with Student Loans** Harmon Foundation, 1929 [Fixed Income Investor](#), 1979 **Review of Reviews** Albert Shaw, 1929 **Reviews of National Policies for Education Reviews of National Policies for Education: Higher Education in Kazakhstan 2007** OECD, 2007-06-22 This book gives a brief overview of regional issues and the history of post secondary education in Kazakhstan and describes the development of higher and tertiary education in the country since the transition began along with a set of key recommendations for improvements *The American Monthly Review of Reviews* Albert Shaw, 1899
