**Sleep Well** Ted Peace,2020-02-12 There is nothing more frustrating than being unable to sleep Tossing and turning over Your mind is racing running over all of today s happenings Noise from the night keeps you awake What are you going to do There are things you can do Read on and learn to sleep well with some new tricks When insomniacs adhere to strict sleep hygiene adapt to good lifestyle behaviors and use behavioral modification interventions that can teach the subconscious mind to fall asleep then they can return to standard healthy sleep patterns and fall asleep quickly and well at night Do not take insomnia medicine such as sleeping pills if you want to permanently and effectively cure your insomnia because sleeping pills are insomnia treatment only for the short term and it can not change your subconscious mind to help you fall asleep quickly and well every night Many people are afraid to camp because they don t think they re going to sleep well This was often the result of a bad childhood experience where they slept in a cheap sleeping bag on the wet ground etc The reality is that it can be refreshing and comfortable to sleep outside especially if you are planning for some effort and have the right equipment We all know we re good at waking up early We can practice we can study we can work Just have more of a life But it s hard for most people to sleep well and wake up early and clean I know in the morning a lot of people are feeling bad Here are some tips and tricks I ve learned over the years that will help me to sleep better and to wake up recharged Sleeping allows you to rejuvenate and refresh yourself but here we discuss how much you need to sleep and what are the side effects of sleeping less Sleep was seen as just a time when you re not awake but a detailed sleep study found that it s far beyond that sleep has different levels and stages
