Each country requires the legal instruments of a good and reliable system of Government to guard against the worst possible economic turmoil. Good governance is an insistence of the constitution in the economic Article 33 paragraph 5 subsequently published Constitution Number 30 Year of 2014 on Government Administration contains 17 principles of a good governance. One of the important points of the principle is a government without corruption and manipulation of policy concepts in order to provide access to consolidation in politics and economy. The latest Transparency International report for 2023 shows that Indonesia's corruption perception index was recorded at 34 points on a scale of 0-100 in 2022. This is a 4 point decrease from the previous year. This decline in the CPI also brought down the ranking of Indonesia's CPI globally. It was noted that Indonesia's CPI in 2022 ranked 110th. In the previous year, Indonesia's CPI was ranked 96th globally. Good Governance is all aspects related to the control and supervision of the power of the Government in carrying out its functions through formal and informal institutions. To implement the principles of Good Governance and Clean Government, the Government must implement the principles of accountability and efficient resource management. Good and clean governance will contribute to economic growth and economic growth will have an impact on human development. During the last decades of 20th century, the needs for a good governance has given some impacts and became a recurring theme in literature related to human development. The intervention of government or the quality of government become crucially important in relation to the high achievement of human development. Whereas an effort in improving society's welfare is through economic development. One of dominant aspects in economic development is through legal development. Good law or policy in such country will have some impacts to the existence of good economic growth because supremacy of law is one aspect of a good governance. Law supremacy is an important institution which is related to economic growth because rule of law ensures personal safety, property rights, unbiased contract enforcement, stability of politics, freedom of speech and control of corruption. According to those various issues and debates on economic legal development and good governance, then the Doctoral Program of the Faculty of Law Sebelas Maret University needs to hold an international conference as a place in exchanging some academic ideas in order to contribute to those legal issues with a theme INTERNATIONAL CONFERENCE ON LAW ECONOMICS AND GOOD GOVERNANCE.
