

# GENDER DIFFERENCES IN MATH ANXIETY

## Materials and Methods

The study was conducted using a survey method. The survey was distributed to a group of students in a classroom setting. The survey consisted of a series of questions designed to measure math anxiety levels. The survey was completed by 50 students, with 25 males and 25 females. The data was then analyzed using statistical methods to determine if there were any significant differences in math anxiety levels between the two groups.

## Results

The results of the study showed that there were significant differences in math anxiety levels between males and females. Females scored significantly higher on the math anxiety scale than males. This finding is consistent with previous research that has shown that females tend to experience higher levels of math anxiety than males.

## Hypothesis

It was hypothesized that females would score higher on the math anxiety scale than males. This hypothesis was based on previous research that has shown that females tend to experience higher levels of math anxiety than males.

## Conclusion

The study concluded that there were significant differences in math anxiety levels between males and females. Females scored significantly higher on the math anxiety scale than males. This finding is consistent with previous research that has shown that females tend to experience higher levels of math anxiety than males.

## Abstract

This study investigated the relationship between gender and math anxiety. The results showed that females scored significantly higher on the math anxiety scale than males. This finding is consistent with previous research that has shown that females tend to experience higher levels of math anxiety than males.

## Purpose

The purpose of this study was to investigate the relationship between gender and math anxiety. The study was designed to determine if there were any significant differences in math anxiety levels between males and females.

*Special Education in Today's Diverse Classrooms* Shantel M. Farnan, Ruby L. Owiny, 2025-09-02 Special Education in Today's Diverse Classrooms Meeting the Needs of Students with Exceptionalities is an introductory level textbook designed for all pre-service teachers to learn about meeting the needs of students with exceptionalities in inclusive environments. Along with descriptions of each IDEA disability category, the book presents high-leverage practices (HLPs) and evidence-based strategies that are practical and applicable to any instructional environment. Through the lens of HLPs, this text emphasizes universal design for learning (UDL), tiered supports, culturally inclusive pedagogies and practices (CIPP), and evidence-based practices (EBPs). This textbook bridges the gap between research knowledge about disabilities and a practical approach to educating students, offering a comprehensive framework for educators navigating the diverse needs of students with exceptionalities. By placing a strong emphasis on CIPP and EBPs as they relate to HLPs, it equips readers with tools to create meaningful and equitable learning experiences. The unique structure, enriched by authentic vignettes and aligned with professional standards, ensures the practical application of frameworks such as UDL and multi-tiered systems of support. Additionally, the book underscores the importance of family engagement, making it a vital resource for fostering collaboration in education. The content aligns with the Council for Exceptional Children (CEC) standards, ensuring its relevance and utility for professional educator preparation. Through its innovative approach, this text inspires educators to not only meet students' needs but also celebrate their individuality, preparing them to succeed in dynamic inclusive school and classroom environments.

**Key Features:** Real-life vignettes from individuals with disabilities, their families, and educators offer authentic perspectives that go beyond case studies. Links to resources to increase exposure and knowledge about specific topics designed to enrich understanding and application of inclusive practices. Includes coverage of concepts such as trauma, neurodiversity, social and emotional learning, assistive technology, and new instructional technologies. With inclusive language and culturally inclusive pedagogies and practices, the book prepares future educators to foster trust and promote equity in their classrooms. Focus on application to the classroom through questions and activities at the end of each chapter. Color graphics, visual frameworks (e.g., UDL models and instructional charts) enhance comprehension and engagement. Please note: ancillary materials such as quizzes and eFlashcards are not available as in the print version of this work.
