Private Data and Public Value Holly Jarman, Luis F. Luna-Reyes, 2016-02-26 This book investigates the ways in which these systems can promote public value by encouraging the disclosure and reuse of privately held data in ways that support collective values such as environmental sustainability Supported by funding from the National Science Foundation the authors research team has been working on one such system designed to enhance consumers ability to access information about the sustainability of the products that they buy and the supply chains that produce them Pulled by rapidly developing technology and pushed by budget cuts politicians and public managers are attempting to find ways to increase the public value of their actions Policymakers are increasingly acknowledging the potential that lies in publicly disclosing more of the data that they hold as well as incentivizing individuals and organizations to access use and combine it in new ways Due to technological advances which include smarter phones better ways to track objects and people as they travel and more efficient data processing it is now possible to build systems which use shared transparent data in creative ways The book adds to the current conversation among academics and practitioners about how to promote public value through data disclosure focusing particularly on the roles that governments businesses and non profit actors can play in this process making it of interest to both scholars and policy makers

Strategic Corporate Social Responsibility David Chandler, 2022-09-12 Strategic Corporate Social Responsibility Sustainable Value Creation Sixth Edition redefines corporate social responsibility CSR as being central to the value creating purpose of the firm Based on a theory of empowered stakeholders this bestselling text argues that the responsibility of a corporation is to create value broadly defined The primary challenge for managers today is to balance the competing interests of the firm s stakeholders understanding that what they expect today may not be what they will expect tomorrow This tension is what makes CSR so complex and demanding but it is also what makes CSR integral to the firm s strategy and day to day operations In this new Sixth Edition author David Chandler explores issues around COVID 19 the BLM movement the supply chain crunch and the great resignation

Labour Relations in the Global Fast-Food Industry Tony Royle, Brian Towers, 2004-08-02 The fast food industry is one

of the few industries that can be described as truly global not least in terms of employment which is estimated at around ten million people worldwide This edited volume is the first of its kind providing an analysis of labour relations in this significant industry focusing on multinational corporations and large national companies in ten countries the USA Canada the UK the Netherlands Germany Australia New Zealand Singapore and Russia The extent to which multinational enterprises impose or adapt their employment practices in differing national industrial relations systems is analysed Results reveal that the global fast food industry is typified by trade union exclusion high labour turnover unskilled work paternalistic management regimes and work organization that allows little scope for developing workers participation in decision making let alone advocating widely accepted concepts of social justice and workers rights

[Selling Sustainability Short?](#) Janina Grabs, 2020-05-14 Can private standards bring about more sustainable production practices This question is of interest to conscientious consumers academics studying the effectiveness of private regulation and corporate social responsibility practitioners alike Grabs provides an answer by combining an impact evaluation of 1 900 farmers with rich qualitative evidence from the coffee sectors of Honduras Colombia and Costa Rica Identifying an institutional design dilemma that private sustainability standards encounter as they scale up this book shows how this dilemma plays out in the coffee industry It highlights how the erosion of price premiums and the adaptation to buyers preferences have curtailed standards effectiveness in promoting sustainable practices that create economic opportunity costs for farmers such as agroforestry or agroecology It also provides a voice for coffee producers and value chain members to explain why the current system is failing in its mission to provide environmental social and economic co benefits and what changes are necessary to do better
