[Books in Print](#) ,1994 **Prentice Hall Exploring Earth Science** ,1997 **A Christian Geologist Explains Why the Earth Cannot Be 6,000 Years Old** Dr. Lorence G. Collins,2021-03-24 A Christian Geologist Explains Why the Earth Cannot Be 6 000 Years Old

Let's Heal the Divide in the Church By Dr. Lawrence G. Collins This book is about the geology of the Earth. Written by a fully committed Christian, it asserts that accepting the knowledge provided by studies in science is in no way in conflict with following the teachings of Jesus. If a Christian understands how God has done his creation, then he/she can be a better steward in taking care of the Earth and its life. The general themes of the book are to expose the false beliefs of young Earth creationists regarding the age of the Earth being 6,000 years old and that Noah's Flood must have been worldwide and global in extent and to suggest that the Bible is not a science text. The contents of this book can be understood by both people trained in science and those who have no background in science. It is intended to give a valuable source of insights about how science works to provide a way to support and guide a Christian witness to the world and to be a bridge to make this possible. As Christians, our greater mission is not to battle over divisions in religious beliefs but to heal the sick, feed the hungry, minister to the abandoned, and so on.
