Jones, Ruth E. Brown Ph.D., Ming Wang, 2016-09-19 The era of big data has revolutionized many industries including advertising This is a valuable resource that supplies current authoritative and inspiring information about and examples of current and forward looking theories and practices in advertising The New Advertising Branding Content and Consumer Relationships in the Data Driven Social Media Era supplies a breadth of information on the theories and practices of new advertising from its origins nearly a quarter of a century ago through its evolution to current uses with an eye to the future Unlike most other books that focus on one niche topic this two volume set investigates the overall discipline of advertising in the modern context It sheds light on significant areas of change against the backdrop of digital data collection and use The key topics of branding content interaction engagement big data and measurement are addressed from multiple perspectives With contributions from experts in academia as well as the advertising and marketing industries this unique set is an indispensable resource that is focused specifically on new approaches to and forms of advertising Readers will gain an understanding of the distinct shifts that have taken place in advertising They will be able to build their knowledge on frameworks for navigating and capitalizing on today's fragmented consumer focused digital media landscape and they will be prepared for what the future of advertising will likely bring Standard & Poor's Creditweek, 2006 *The Russian River, a Characteristic Stream of the California Coast Ranges* Ruliff Stephen Holway, 1917 Memoir - New Zealand Geological Survey New Zealand Geological Survey, 1928 **Moore's Rural New Yorker**, 1914 *Engineering News*, 1891

Addressing Data Volume, Velocity, and Variety with IBM InfoSphere Streams V3.0 Mike Ebberts, Ahmed Abdel-Gayed, Veera Bhadrar Budhi, Ferdiansyah Dolot, Vishwanath Kamat, Ricardo Picone, Joao Trevelin, IBM Redbooks, 2013-03-12 There are multiple uses for big data in every industry from analyzing larger volumes of data than was previously possible to driving more precise answers to analyzing data at rest and data in motion to capture opportunities that were previously lost A big data platform will enable your organization to tackle complex problems that previously could not be solved using traditional infrastructure As the amount of data available to enterprises and other organizations dramatically increases more and more companies are looking to turn this data into actionable information and intelligence in real time Addressing these requirements requires applications that are able to analyze potentially enormous volumes and varieties of continuous data streams to provide decision makers with critical information almost instantaneously IBM InfoSphere Streams provides a development platform and runtime environment where you can develop applications that ingest filter analyze and correlate potentially massive volumes of continuous data streams based on defined proven and analytical rules that alert you

to take appropriate action all within an appropriate time frame for your organization This IBM Redbooks publication is written for decision makers consultants IT architects and IT professionals who will be implementing a solution with IBM InfoSphere Streams

Streaming and Copyright Law Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions
