

LGSW: THEORIES AND MODELS

When selecting an answer for the LGSW examination, you should... - Answers-...base it upon the content studied in the "ASWB Masters Exam Guide" and what you learned in the classroom rather than agency policies or specific protocol from an internship.

2 You should stay within the material in the question and... - Answers-...not add information based upon practice experience.

When answering "first" or "next" questions that ask for a sequence of events in a case vignette, it is helpful to... - Answers-...prioritize client needs sequentially using Maslow's hierarchy of needs. (Referring to practice background will not help, because each agency's protocol is subjective. Instead, use Maslow's hierarchy because of its universal application to social workers everywhere). For example, in these questions you would "first" address client problems related to health, safety, and basic needs (employment, housing, transportation) as opposed to those related to relationships or self-esteem.

Order of the "problem solving process" - Answers-engagement, assessment, planning, intervention, evaluation, and termination.

TIP! If the age of a client or others is included in a case vignette, it... - Answers-is usually relevant to selecting the correct answer.

TIP! When debating between multiple answers, the _____ choice can help provide some clues. - Answers-VERB! For example, if the case vignette is asking the social worker what they would do in a situation, using the verb "provide" that is essential to social workers everywhere is a more useful clue than answers including verbs such as "ignore" or "wait."
