6 Tools for Collaborative Mathematics Coaching Nicora Placa, 2023-10-10 In *6 Tools for Collaborative Mathematics Coaching* Nicora Placa lays out a clear path to help you become a trusted and effective math coach. Her 6 Tools are flexible structures that you and your colleagues can use to learn together: Building Teams, Fostering a Learning Community, Student Interviews, Learning to Listen, Visiting Classrooms, Developing Your Lens, Learning Walks, Focusing the Team on Students, Thinking, Rehearsing Routines, Practicing with Colleagues, Lesson Study, Learning Collectively with Voice Choice and Agency. In this easy-to-use practical guide, Placa introduces each of the 6 Tools with classroom vignettes, step-by-step guidelines for rollout, connections to the literature, resources for further research, planning templates, and opportunities for you to adapt the tool for your particular context. Whether you're a new coach who loves teaching math to children but is new to adult education or a more experienced coach who is looking for new strategies to engage your teams, *6 Tools for Collaborative Mathematics Coaching* can help you create learning opportunities that honor teachers as professionals. With a collaborative coaching approach, you can improve teaching and learning across your school and for all your students. There's so much to love about how *6 Tools* is constructed. Elham Kazemi

The Researching, Teaching, and Learning Triangle Miguel A. R. B. Castanho, Gul Guner, 2011-09-28 It is impossible not to ask ourselves how to cope with the role and impact of scientific research in teaching and learning. The researching, teaching, and learning triangle explores a growing trend among top universities across the world to focus attention on the quality of postgraduate education and the success of the educators using pioneering examples ranging from classroom-level initiatives to university-wide projects. This book will be of interest to all scientists from the budding beginner to the seasoned supervisor.

The Experience of 'Defending' the Doctoral Dissertation Michael Byram, Maria Stoicheva, 2025-03-24 This volume describes, compares, and analyses the experience of defending the doctoral dissertation in a final oral examination in universities and traditions in the European Higher Education Area (EHEA) and beyond. Forming the basis for a comparative study of the different traditions, 11 case study chapters include analysis of the regulatory framework, semi-structured interviews with candidates, examiners, and supervisors, and ethnographic observations of the defence. Cases are drawn from universities in Bulgaria, Denmark, England, France, Germany, Italy, Portugal, Slovenia, the USA, and China. Further chapters analyse comparatively the findings in the case studies and explore crucial themes such as the nature and purpose of the defence, the composition of examining committees, the role of supervisors, and the idea of the defence as ritual and performance. Providing unprecedented levels of detail into a process often perceived as hidden from academic debate, this book will enrich the experience of both new and existing candidates as well as examiners and supervisors and will be of further interest to researchers, scholars, and postgraduate students working on the study of higher education, international and comparative education, and assessment in higher education.
