## USER INSTRUCTIONS

### INTRODUCTION

The SELECT 107 electronic time switch can automatically switch ON and OFF twice a day at whatever times you choose.

During installation the installer selects either 24-hour or 5-day/2-day or 7-day programming options via 3 position switch on back of unit (see installation instructions).

24-hour programmer option runs same programme every day.

5-day / 2-day programmer option allows different ON / OFF times at weekend.

7-day programmer option allows different ON / OFF times for each day of week.

This unit is designed to eliminate possibility of accidental changes to your programme. Buttons normally visible only affect your set programme temporarily. All buttons which can permanently change your programme are located behind the flip-down fascia panel.

### BUILT IN PROGRAMME

For convenience, the programmer has a built in programme which for many people is perfectly satisfactory but it can be changed quite easily (see section CHANGING PROGRAMME TIMES).

Built in programme is loaded by pressing RESET button (H) (use a non-metallic pointed tool for this) and is as follows:-

|                    |               |                |               |                 |
|--------------------|---------------|----------------|---------------|-----------------|
| Weekdays (Mon-Fri) | 1-ON > 8.00am | 1-OFF > 8.30am | 2-ON > 4.30pm | 2-OFF > 10.30pm |
|--------------------|---------------|----------------|---------------|-----------------|

|                    |               |                |               |                 |
|--------------------|---------------|----------------|---------------|-----------------|
| Weekends (Sat&Sun) | 1-ON > 7.00am | 1-OFF > 9.00am | 2-ON > 4.30pm | 2-OFF > 11.00pm |
|--------------------|---------------|----------------|---------------|-----------------|

If unit is installed as a 24-hour programmer the built in programme will be the same for each day (see Mon-Fri above).

### SELECTING OPERATING MODE

MODE button (A) selects the operating mode. There are 4 modes as described:-

CONT (continuous) Switch will be on all the time.

2 (on twice) Switch will be switched on or off exactly as stored programme, twice per day.

1 (on once) Switch will be switched on only once each day.  
It will switch on at 1st ON time and off at 2nd OFF time.

OFF Switch will be off all the time.

### SETTING TIME AND DAY

Press SET button (B) once.

The display indicator will move to position above clock symbol and will be flashing.

Press +/- buttons (C&E) to adjust time. Time will change quicker if pressed continually.

Press DAY button (F) to move indicator to current day of week.

Press SET button (B) three times if you wish to return to normal run state. Indicator on display will be above PULL symbol.

If you wish to change programme on/off times (see next section).

### Note

The unit has a built in timer which will cause the programmer to return to normal run state automatically if a period of 5 minutes passes without any buttons being pressed.
