The Threat to Reason Dan Hind, 2020-05-05 Today media commentators intellectuals and politicians declare that western science and rationality are threatened by irrational enemies Evangelicals postmodernists and Islamists are on the march they say The Rome that science built is under siege But there s a problem with these stirring attempts to defend the truth They aren t true In this urgent new book Dan Hind confronts the great machinery of deception in which we live and which now threatens to destroy our civilization In particular he takes to task a group of prominent intellectuals who have exaggerated the threat posed by the so called forces of unreason religion postmodernism and other mumbo jumbo The commentators says Hind distract us from much more pressing threats to an open democratic society based on freedom of speech and inquiry This book shows that the real threats to reason aren t wacky or foreign or stupid they reside in our state and corporate bureaucracies and one way or another they probably pay your salary In recovering the idea of Enlightenment Hind explores its vital importance and reveals how it can help us to achieve a truly democratic politics in which we have a genuine say in the decisions that are taken on our behalf
