## **The Toymakers Apprentice:**

*The Toymaker's Apprentice* Sherri L. Smith, 2016-10-04 Journeyman toymaker Stefan Drosselmeyer is recruited by his mysterious cousin Christian to find a mythical nut that will save Boldavia's princess and his own kidnapped father from a fanatical Mouse Queen and her seven headed Mouse Prince who have sworn to destroy the Drosselmeyer family

**Toy-Maker's Apprentice** James R. Poyner, 2004-07-15 IN JUST ONE year Jack Knob has gone from being a young man beginning to realize his dreams to one whose desperate thoughts are aimed at helping his struggling family Max Prentice who has had his eye on Jack for sometime is a successful toy maker and the owner of a toy store in Chicago Yet when Jack's desperate thoughts begin to turn into action Max intervenes shows Jack the error in his thinking and hires Jack to be his apprentice Indeed all is going well until illness confines Max to bed and results in his wife Mildred running the store With little remorse her first act is to fire Jack To learn what happens to Jack Mildred and even Max turn the knob and enter the shop

*The Meccano Apprentice* Jeffrey Roy Byrne, 2017-08-31 A few weeks after I made an attempt to rocket power a Dinky Toy nearly blowing up the Toolroom in the process I left the Meccano factory to present myself at Cardington Air Force Base to do my National Service in the R A F Three days later I was back having been pronounced unfit to serve Queen and Country because I had suffered two severe bouts of pneumonia as a child At a previous medical I had been graded A1 My family were happy to see the return of the prodigal not so my current girlfriend she had wasted no time in finding a replacement After my explosive exit I was also less than welcome when I arrived back at Meccano on the following Monday but because I had left to do my duty in the armed forces by law they had to give me my job back I was immediately moved into the Tool Repair next door where presumably they thought I would be out of harm's way and the main Toolroom staff would be safer without a budding bomb maker in their midst Life moved on then one Sunday afternoon I happened to be near Binns Road and decided to pay a nostalgic visit to the old Meccano factory now closed Outwardly the building looked much as I remembered but when I peered in through a small window set in one of the massive doors I looked upon total devastation demolition was well under way For a long time I gazed as the memories flooded back so real and fresh that I realised such unique experiences should not be allowed to simply fade away as the place in which they were created was fading away they must be preserved And so All the incidents in this narrative actually happened although obviously not precisely as depicted This book has not been written to extol the wonderful products which poured from the Binns Road production lines for over fifty years that has been done many times but rather it is to bring to the reader the experiences good and bad happy and sometimes traumatic of a young apprentice growing up in the legendary factory that was Meccano Except for the author most of the names have been changed to protect the innocent and the not so innocent

from the Mist and Other Told Tales is a collection of short stories that weaves the transient with the intransient places of lights and regions of shadows dominions of spirits and of angels It is the first and the last place where all is lost only to be found again From the darkness of these tales springs forth the illuminating experience of the human spirit and human imagination These are our tales tales that reflect the less worthy side of humanity the secret tales that no one talks about They are legends from the mist whispered from the rich subconscious of our dreams     *St. Nicholas* Mary Mapes

Dodge,1918     **The Industrious Child Worker** Mary Nejedly,2021-09-01 Studies of child labour have examined the experiences of child workers in agriculture mining and textile mills yet surprisingly little research has focused on child labour in manufacturing towns This book investigates the extent and nature of child labour in Birmingham and the West Midlands from the mid eighteenth century to the end of the nineteenth century It considers the economic contributions of child workers under the age of 14 and the impact of early work on their health and education Child labour in the region was not a short lived stage of the early Industrial Revolution but an integral part of industry throughout the nineteenth century Parents regarded their children as potentially valuable contributors to the family economy encouraging families to migrate from rural areas so that their children could work from an early age in the manufacture of pins nails buttons glass locks and guns as well as tin plating carpet weaving brass casting and other industries The demand for young workers in Birmingham was greater than that for adults in Mary Nejedly s detailed analysis the importance of children s earnings to the family economy becomes clear as well as the role played by child workers in industrialisation itself In view of the economic benefit of children s labour to families as well as employers both children s education and health could and did suffer As well as working at harmful processes that produced dangerous fumes and dust or exposed them to poisonous substances children also suffered injuries in the workplace mainly to the head eyes and fingers and were often subjected to ill treatment from adult workers The wide gulf in economic circumstances that existed between the families of skilled workers and those of unskilled workers unemployed workers or single parent families also becomes evident Attitudes towards childhood changed over the course of the period however with a greater emphasis being placed on the role of education for all children as a means of reducing pauperism and dependence on the poor rate Concerns about health also gradually emerged together with laws to limit work for children both by age and hours worked Mary Nejedly s clear eyed research sheds fresh light on the life of working children and increases our knowledge of an important aspect of social and economic history     **The Athenaeum**
