eating out portion size calorie count pantry stocking and supplements and meal replacements **The Oprah Phenomenon** Jennifer Harris, Elwood Watson, 2007-03-16 Excellent essays on a business empire a cultural phenomenon and the nature of the extraordinary bond between Oprah Winfrey and her fans Journal of Social History Oprah Winfrey has built an empire on her ability to connect with and inspire her audience No longer just a name Oprah has become a brand representing a unique style of self actualizing individualism The cultural and economic power wielded by Winfrey merits critical evaluation The contributors to The Oprah Phenomenon examine the origins of her public image and its substantial influence on politics entertainment and popular opinion Contributors address praise from her supporters and weigh criticisms from her detractors Winfrey's ability to create a feeling of intimacy with her audience has long been cited as a foundation of her popularity She has made headlines by engaging and informing her audience with respect to her personal relationships to race gender feminism and New Age culture The Oprah Phenomenon explores these relationships in detail At the root of Winfrey's message is her assertion that anyone can be a success regardless of background or upbringing The contributors scrutinize this message What does this success entail Is the motivation behind self actualization in fact merely the hope of replicating Winfrey's purchasing power Is it just a prescription to buy the products she recommends and heed the advice of people she admires or is it a lifestyle change of meaningful spiritual benefit The Oprah Phenomenon asks these and many other difficult questions to promote a greater understanding of Winfrey's influence on the American consciousness Identifies the common threads that run through Oprah's empire the demographics of her audience how she brings together women of diverse backgrounds and her use of empathy and encouragement to foster self improvement Library Journal With a foreword by

Robert J Thompson *The Ultimate Weight Solution Food Guide* Phillip C. McGraw,2004 Sham Steve Salerno,2006-09-26 Self help To millions of Americans it seems like a godsend To many others it seems like a joke But as investigative reporter Steve Salerno reveals in this groundbreaking book it's neither in fact it's much worse than a joke Going deep inside the Self Help and Actualization Movement fittingly the words form the acronym SHAM Salerno offers the first serious expos of this multibillion dollar industry and the real damage it is doing not just to its paying customers but to all of American society Based on the author's extensive reporting and the inside look at the industry he got while working at a leading lifestyle publisher SHAM shows how thinly credentialed experts now dispense advice on everything from mental health to relationships to diet to personal finance to business strategy Americans spend upward of 8 billion every year on self help programs and products And those staggering financial costs are actually the least of our worries SHAM demonstrates how the self help movement's core philosophies have infected virtually every aspect of American life the home the workplace the schools and more And Salerno exposes the downside of being uplifted showing how the empowering message that dominates self help today proves just as damaging as the blame shifting rhetoric of self help's Recovery movement SHAM also reveals How self help gurus conduct extensive market research to reach the same customers over and over without ever helping them The inside story on the most notorious gurus from Dr Phil to Dr Laura from Tony Robbins to John Gray How your company might be wasting money on motivational speakers executive coaches and other quick fixes that often hurt quality productivity and morale How the Recovery movement has eradicated notions of personal responsibility by labeling just about anything from drug abuse to sex addiction to shoplifting a dysfunction or disease How Americans blindly accept that twelve step programs offer the only hope of treating addiction when in fact these programs can do more harm than good How the self help movement inspired the disastrous emphasis on self esteem in our schools How self help rhetoric has pushed people away from proven medical treatments by persuading them that they can cure themselves through sheer application of will As Salerno shows to describe self help as a waste of time and money vastly understates its collateral damage And with SHAM the self help industry has finally been called to account for the damage it has done Also available as an eBook **The Publishers Weekly** ,2005 **Good Housekeeping** ,2004 **Love Smart** ,2005 **The World Almanac and Book of Facts** ,2006 Ken Park,2005-11 Offers comprehensive facts figures and explanations of the events people and places in the news with original articles on recent issues and topics **Esquire** ,2004 *The Herb Quarterly* ,2003 **Business rankings annual** Lynn M.
