Word of Mouse John Riedl, Joseph Konstan, 2002-08-23 At the vanguard of the Internet revolution are two computer scientists from Minnesota who are pioneers of Collaborative Filtering CF. CF is a technology that enables companies to understand their customers and in turn sell products, goods and services with remarkable success. To test CF, John Riedl and Joseph Konstan built two Internet sites, MovieLens and GroupLens, that allowed users to customize their preferences for movies and news. The results were astounding: MovieLens demonstrated amazing accuracy almost ensuring that the recommendation would prove enjoyable. In "Word of Mouse", the authors analyze dozens of companies from Best Buy to Amazon to TiVo and show what these companies are doing right and what they are doing wrong. Riedl and Konstan map out a broad range of strategies that companies can employ to raise revenue, customer loyalty and satisfaction.

Do Good Anne Bahr Thompson, 2017-11-30 Increasingly, today in every age group, consumers are committing to brands that show good citizenship from fair employment practices to social responsibility to charitable giving. In fact, support of these generous and socially aware companies is so high that good works and charitable giving are necessary for companies that aspire for financial success.

"Do Good" documents the sea of change that has impacted the twenty-first century marketplace more than even the most optimistic of business forecasters, including examples such as Toms, which grew into a 600 million company by giving away 35 million pairs of shoes.

Patagonia's profits have climbed year after year, even as it funnels heavy investments into sustainability. CVS's strategic decision to start destocking cigarettes in all stores. Customers have shown with their wallets the types of businesses they will support and that they will quickly call out negligence. Buyers today demand more than half-hearted pledges from companies who are clearly just trying to show less profits and decrease their taxes. By implementing the five-step model for the new rules of business laid out in "Do Good", Trust, Enrichment, Responsibility, Community, and Contribution, companies can take the necessary steps to embed social consciousness into their DNA in turn capturing both markets and hearts.
