

RESEARCH DESIGN

Research design refers to the strategies and methods researchers employ to carry out their research and reach valid and reliable results.

OVERVIEW

A research design outlines the steps and procedures to be followed to address the research questions or objectives effectively. The design determines the type and source of data, the sampling strategy, the data collection methods, and the statistical analyses. A well-designed research study ensures that the data collected are reliable, valid, and capable of providing meaningful insights.

EXAMPLES

- Experimental design
- Quasi-experimental design
- Descriptive design
- Correlational design
- Case study design
- Longitudinal design
- Cross-sectional design
- Ethnographic design
- Phenomenological design
- Action research design
