[GadChick's Guide to Making an iPhone App](#) GadChick, 2012-08-08 Do you have a killer idea for an iPhone app? Who doesn't? With 99 and a bit of programming skills you can have that app for sale in no time at all. Wait, wait, wait, programming? What now? Insert sad face here. That's right, this book is going to tell you the dirty secret that most iPhone guidebooks don't: it's hard. We aren't going to sugarcoat it: chances are, after reading this book, you might feel a little discouraged. That's because we aren't going to try you a quick 'get rich' scheme where, in 1 hour, you'll be able to develop your way to millions. We are going to show you exactly what programming is, the time it entails, and what it takes to make a killer app. The point of this book isn't to help you design the next Angry Birds; the point is to help you decide if you have the programming know-how to make it happen. Don't worry if you don't: we'll also show you cheap alternatives and places you can go to find people to develop for you and it's cheaper than you think. **Direct Loan Training Guide, 1999-2000, March 1999**, 1999 **Mac Application Development For Dummies** Karl G.
