**Today's Sounds for Yesterday's Films** K.J. Donnelly, Ann-Kristin Wallengren, 2016-04-08 In recent years there has been something of an explosion in the performance of live music to silent films There is a wide range of films with live and new scores that run from the historically accurate orchestral scores to contemporary sounds by groups such as Pet Shop Boys or by experimental composers and gothic heavy metal bands It is no exaggeration to claim that music constitutes a bridge between the old silent film and the modern audience music is also a channel for non scholarly audiences to gain an appreciation of silent films Music has become a means both for musicians and audiences to understand this bygone film art anew This book is the first of its kind in that it aims to bring together writings and interviews to delineate the culture of providing music for silent films It not only has the character of a scholarly work but is also something of a manual in that it discusses how to make music for silent films *Yesterday's Melodies Today's Memories* Manek Premchand, 2018-12-27 Yesterday's Melodies Today's Memories is a rare collection of profiles of all important music makers of the Hindi Film Industry between 1931 and 1970 It not only gives a biographical background of each music artiste but it goes further to interview many of the surviving giants and completes the task by listing some of the best songs with which that person is associated Here are singers that include the whole gamut from KL Saigal to Asha Bhosle lyricists that include Sahir and Gulzar music composers from Naushad to RD Burman artistes that were part time singers and full time actors like Ashok Kumar melody queens like Noor Jahan and Lata Mangeshkar gentlemen lyricists like Prem Dhawan and gentlemen singers like Manna Dey mischief makers like Kishore Kumar and rebels without pause like OP Nayyar and Majrooh Sultanpuri In fact this book is a house in which all these great talents live happily each in a separate room given space for self expression The serious research that has gone into this book is evident as you move from one chapter to another opening layers after layers presented non seriously Over 100 music makers are presented this way and many more in a huge single chapter
