categories and sub categories Save yourself time and stress by choosing the two best categories required by Amazon before you go online to publish your book This resource will help you to Be accurate Pick the most accurate categories based on the subject matter of your book Be specific It s better to choose specific categories instead of general ones Customers looking for specific topics will more easily find your book and Amazon will display your book in the general categories as well For example a book in the FICTION Fantasy Historical category will also show up in searches for general fiction and general fantasy books Only select a General category if your book is actually a general book about a broad topic Be concise Don t be redundant Choosing even a single category will display your book in a variety of searches Selecting one specific accurate category is more effective than listing a redundant second category This is a resource every self publishing author should have on their virtual bookshelf
