Carvalho,Emily Darlington,Teresa Vilaça,2024-12-17 Health education well being improvement and advocacy are effective health promotion strategies among cutting edge Public Health practices Salutogenic perspectives rooted in ecological models have taken their rightful place to empower individuals and communities to change their life ecosystems and preserve and improve their health It is imperative to shift from targeting protective or risk factors which have linear causal relationships with health conditions and or comorbidities and encompass a systemic understanding of the role of health determinants in creating health Individual collective and structural ecological approaches can better reduce health inequities Moreover

engaging the presumed beneficiaries from such strategies ensures that actual needs are identified and choices are context specific It improves the whole implementation process as well as its results Higher levels of participation such as co creation imply a bottom up voluntary collaborative process rooted in values of diversity mutual trust openness autonomy freedom and respect as well as shared expertise responsibility and decision making which are essential values in co creating health promotion

Continuous Quality Improvement - Advancing Understanding of Design, Application, Impact and Evaluation of CQI Approaches

Ross Bailie, Sarah Larkins, Edward Broughton, 2017-12-12 Continuous Quality Improvement CQI methods are increasingly widely used to bridge the gaps between the evidence base for best clinical practice what actually happens in practice and the achievement of better population health outcomes Among a range of quality improvement strategies CQI methods are characterised by iterative and ongoing use of specific processes to identify quality problems develop solutions and implement and evaluate changes The application of CQI processes in health is evolving and evidence of their success continues to emerge There is however a need to enhance understanding of how best to implement scale up and evaluate CQI programs for the purpose of improving quality of care and population health outcomes in different contexts This research topic aims to attract articles that add to knowledge of useful approaches to tailoring CQI methods for different contexts or purposes and for implementation scale up and evaluation of CQI interventions programs
