## **Google Maps This Month Install:**

*Create Your Own Website Using WordPress in a Weekend* Alannah Moore, 2013-09-11 Having a website built can be a complicated and expensive undertaking For large businesses this is a necessary expense but for the ever increasing number of independents and small businesses this can easily be handled by the intrepid amateur In *Create Your Own Website Using WordPress in a Weekend* author Alannah Moore draws on her extensive experience to show how in just a weekend almost anyone can create a website in WordPress that looks professional and is entirely tailored to their needs and preferences Through carefully structured step by step tutorials the book takes the reader through every stage of the web design process It is illustrated with fabulous examples and features checklists and tips throughout covering domain registration planning plugins and choosing the right theme This will cover the upcoming WP 2012 version *Hands On With Google Data Studio* Lee Hurst, 2020-01-09 Learn how to easily transform your data into engaging interactive visual reports Data is no longer the sole domain of tech professionals and scientists Whether in our personal business or community lives data is rapidly increasing in both importance and sheer volume The ability to visualize all kinds of data is now within reach for anyone with a computer and an internet connection Google Data Studio quickly becoming the most popular free tool in data visualization offers users a flexible powerful way to transform private and public data into interactive knowledge that can be easily shared and understood *Hands On With Google Data Studio* teaches you how to visualize your data today and produce professional quality results quickly and easily No previous experience is required to get started right away all you need is this guide a Gmail account and a little curiosity to access and visualize data just like large businesses and organizations Clear step by step instructions help you identify business trends turn budget data into a report assess how your websites or business listings are performing analyze public data and much more Practical examples and expert tips are found throughout the text to help you fully understand and apply your new knowledge to a wide array of real world scenarios This engaging reader friendly guide will enable you to Use Google Data Studio to access various types of data from your own personal data to public sources Build your first data set navigate the Data Studio interface customize reports and share your work Learn the fundamentals of data visualization personal data accessibility and open data API s Harness the power of publicly accessible data services including Google s recently released Data Set Search Add banners logos custom graphics and color palettes *Hands On With Google Data Studio A Data Citizens Survival Guide* is a must have resource for anyone starting their data visualization journey from individuals consultants and small business owners to large business and organization managers and leaders **Foundations of Python Network Programming** John Goerzen, Tim Bower, Brandon Rhodes, 2011-02-24 This second edition of *Foundations of Python Network Programming* targets Python 2.5 through Python 2.7 the most popular production versions of the language Python has made great strides since Apress released the first edition of this book back in the days of Python 2.3 The advances required new chapters to be written from the ground up and others to be extensively

revised You will learn fundamentals like IP TCP DNS and SSL by using working Python programs you will also be able to familiarize yourself with infrastructure components like memcached and message queues You can also delve into network server designs and compare threaded approaches with asynchronous event based solutions But the biggest change is this edition s expanded treatment of the web The HTTP protocol is covered in extensive detail with each feature accompanied by sample Python code You can use your HTTP protocol expertise by studying an entire chapter on screen scraping and you can then test lxml and BeautifulSoup against a real world web site The chapter on web application programming now covers both the WSGI standard for component interoperability as well as modern web frameworks like Django Finally all of the old favorites from the first edition are back E mail protocols like SMTP POP and IMAP get full treatment as does XML RPC You can still learn how to code Python network programs using the Telnet and FTP protocols but you are likely to appreciate the power of more modern alternatives like the paramiko SSH2 library If you are a Python programmer who needs to learn the network this is the book that you want by your side

**Photovoltaic Pumping Systems for Domestic Sustainable Water Access in Off-Grid Areas** Judith Alazraque Cherni, Simon Meunier, Loïc Quéval, 2024-03-23

This book offers practical guidance for practitioner engineers policymakers and other decision makers on how to implement solar photovoltaic water pumping systems to provide domestic clean water in off grid regions of developing countries By championing genuine multidisciplinary research and generating interdisciplinary results this book develops models and approaches which indicate how it might be possible to overcome some of the limitations that technocratic approaches to renewable energy and water access pose to truly sustainable development The book addresses technical challenges often found when promoting photovoltaic water pumping systems It offers practical guidance to stakeholders on how to successfully select install and maintain photovoltaic water pumps to promote sustainable options for the poorest underserved areas populations A main novelty of this book is that by using theoretical as well as real actual field work data and advanced modelling it successfully connects energy systems engineering environmental and geographical information and hydrology with population surveys which reveal local needs and conditions The book is timely and important More than 665 700 million worldwide still do not have access to improved drinking water sources eight out of ten live in rural areas typically located either in off grid territory or where connection to nearby grid is too expensive or unfeasible Unsafe water is responsible for 1 2 million deaths each year mainly correlated with the diarrheal diseases generated from drinking water from unimproved water sources Sustainable Development Goal 6 clean water and sanitation may be achieved only if water is accessible to everyone available when needed and free from contamination
