Given the cost of foreign education and salaries in India it is almost impossible to pay off the loan with an Indian salary So there is huge pressure to get a job in the country of schooling This can be difficult as most jobs cater towards those with local citizenship From personal experiences with study abroad scholarships I realize that most of the scholarships that are shown to students require citizenship or permanent residence of the local country When I was at Georgia Tech there were plenty of scholarships available to local residents of Georgia USA Most of the local students could cover their entire tuition with the scholarships The international students were left hanging To address this issue our team looked at several programs both in India and the developed countries There are scholarships in USA Australia USA and Europe that are specific to students from developing countries to help educate their workforce There are also scholarships by private and public organizations in India that are for Indian citizens There are several universities that provide scholarships as well This book is a compilation of several of the most prominent scholarships that could benefit you in your studies and make a difference in your life As a bonus for downloading this book you will get an extra chapter on how to carry out an effective search for a desired scholarship and tips on how you can write a winning proposal You will also get tips on how you can avoid being scammed amongst other beneficial insight I would encourage you to go through the entire book as you may not really know what best suits your academic needs unless you have read all through the book What s included in this book List of scholarships for US universities List of scholarships for UK and European universities List of scholarships for Australian Universities List of scholarships for Canadian Universities How to effectively submit an application for a scholarship Bonus If this sounds like what you want then this book is for you Scroll up and download
