McKenna, 2012-01-01 The importance of Response to Intervention has never been clearer We strongly believe that RTI when fully implemented represents our best hope of building the kind of schoolwide framework necessary for making truly informed choices about the type and intensity of the reading instruction children receive Our goal for this book is to offer the guidance needed to use these and other tools in an RTI framework This is a book about the assessment component of RTI We offer guidance and tools for gathering the information needed in an RTI framework We have tried our best to write a book that is both practical and specific that reflects both research and common sense that is consistent with standards and that affords guidance in the issues central to RTI

Television and the Exceptional Child Joyce Sprafkin, Kenneth D. Gadow, Robert Abelman, 2013-10-23 The question of what types of children are most influenced by or can best benefit from television is a recurrent theme in the scientific literature as well as a frequently raised issue for pediatric associations educators and parent citizen groups concerned about the welfare and advancement of young children To effectively address this question this book focuses on a wide variety of children with highly divergent cognitive abilities social skills and educational capacities that is those labeled as emotionally disturbed learning disabled mentally retarded and intellectually gifted These children not only possess

characteristics that place them at the greatest risk with regard to television's negative impact but also in a position to most benefit from the purposeful use of the medium at home and in the classroom.
