The Statistical Sleuth Fred Ramsey, Daniel Schafer, 1997 *Fundamentals of Cartography (Second Revised and Enlarged Edition)* R.P. Misra, 2014-01-01 The first edition of Fundamentals of Cartography was published in 1969 by Prasara University of Mysore It was reprinted by the Concept Publishing Company New Delhi in While the book remained in currency the cartographic processes changed drastically when information technology brought a sea of change in the sources of information drafting of maps and printing processes Drawing maps by hand became obsolete surveying whether ground or aerial was no longer the only major source of information In view of these changes it became necessary to bring out a new edition Realising that unless one knows directions scales projections coordinates ground and air surveys one would fail to understand the proper use of modern information technology in the drawing the maps Thus the contents of 1969 edition are retained and new chapters have been added to update the book In Part II of the book a chapter on Remote Sensing and Satellite Imagery has been added and Part V contains chapters on Computer Aided Cartography Geographic Information System GIS Land Information System LIS and Global Positioning System GPS **The Cumulative Book Index**

, 1997 A world list of books in the English language Developing an Effective Construction Training Program for American Supervisors with Hispanic Craft Workers Edna Vanessa Vázquez, 2005 In the construction industry Hispanics have the highest rate of fatal work injuries among the racial ethnic groups and productivity in the field is limited by the language barrier between Hispanic workers and their supervisors and the level of education of many Hispanic craft workers This research developed a training program designed to facilitate the integration process between American supervisors and Hispanic craft workers in a practical and cost effective way thus improving productivity and lowering fatality rates The Iowa State University research team conducted a survey of 38 American supervisors representing 14 Iowa construction companies Survey results confirm that communication is the main problem experienced by American supervisors in the job site Many American supervisors also use or depend on a link person an individual who interprets tasks to the rest of the Hispanic crew to communicate to the Hispanic crew members Research findings show that language differences affect productivity and workplace safety in the construction industry Additionally the educational levels of Hispanic workers indicate that they may not have the literacy skills necessary to understand training materials This research developed two training courses designed to expand the Spanish communication skills of American supervisors The research team modified the English as a second language course developed in Phase I into the Spanish as a Second Language SSL Survival Course A series of technical training courses were also developed titled Concrete Pavement Construction Basics CPCB that cover general practices in

concrete pavement construction They are much shorter and more specialized than the SSL course The CPCB courses provide American supervisors simple and practical communication tools on a variety of topics to choose from according to their specific needs *Catalog of Copyright Entries.
