David M.. Levine, 2005 Promoting Statistical Practice and Collaboration in Developing Countries O. Olawale Awe, Kim

Love, Eric A. Vance, 2022-06-07 Rarely but just often enough to rebuild hope something happens to confound my pessimism about the recent unprecedented happenings in the world This book is the most recent instance and I think that all its readers will join me in rejoicing at the good it seeks to do It is an example of the kind of international comity and collaboration that we could and should undertake to solve various societal problems This book is a beautiful example of the power of the

possible It provides a blueprint for how the LISA 2020 model can be replicated in other fields Civil engineers or accountants or nurses or any other profession could follow this outline to share expertise and build capacity and promote progress in other countries It also contains some tutorials for statistical literacy across several fields The details would change of course but ideas are durable and the generalizations seem pretty straightforward This book shows every other profession where and how to stand in order to move the world I urge every researcher to get a copy David Banks from the Foreword Promoting Statistical Practice and Collaboration in Developing Countries provides new insights into the current issues and opportunities in international statistics education statistical consulting and collaboration particularly in developing countries around the world The book addresses the topics discussed in individual chapters from the perspectives of the historical context the present state and future directions of statistical training and practice so that readers may fully understand the challenges and opportunities in the field of statistics and data science especially in developing countries Features Reference point on statistical practice in developing countries for researchers scholars students and practitioners Comprehensive source of state of the art knowledge on creating statistical collaboration laboratories within the field of data science and statistics Collection of innovative statistical teaching and learning techniques in developing countries Each chapter consists of independent case study contributions on a particular theme that are developed with a common structure and format The common goal across the chapters is to enhance the exchange of diverse educational and action oriented information among our intended audiences which include practitioners researchers students and statistics educators in developing countries
