

3.1 SUCCESSION-POGIL (PART I)

NAME _____ HR _____

ES-OBJECTIVE: Distinguish how communities develop differently over time.

QOC: May 18, 1980, Mount St. Helens in the state of Washington erupted with the force of a hydrogen bomb. The volcano had been dormant for over 130 years, but over 57 people were dead and forests and lakes were totally destroyed, including nearby Spirit Lake, which became a mud hole. The blast leveled trees in areas over 10 miles from the crater and ash deposits suffocated life on the mountain. However, within weeks, mammals that had taken shelter underground started to reappear in the area, and now, over thirty years later, many areas of the mountain are colonized with a large variety of plant and animal life. How does an area move from a sterile, barren wilderness to one full of life?

MODEL 1- PRIMARY SUCCESSION

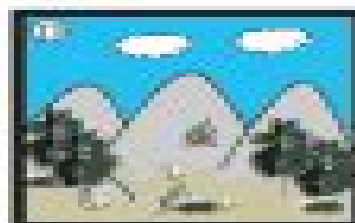

Barren rock flow beneath a retreating glacier, or due to a volcanic eruption.

Low-growing plants such as mosses, ferns, and lichens begin to colonize.

Fast-growing grasses, flowering plants, and small shrubs begin to colonize. A thin layer of soil develops.

Fast-growing trees such as birch and aspen begin to form a low forest and shade out lower plants.

100-200 years later, colonization begins. Sluggish, slow-growing trees such as an oak, become established.

POGIL™ Activities for High School Biology

1. **Refer to Model 1:**

- On what type of land does primary succession first begin to occur?
- Does there appear to be any life on the land when primary succession begins?
- Why would most plants such as shrubs and trees find it difficult to grow here?

2. **Refer to diagram 5 in Model 1:**

- What are the first organisms (colonizers) on this land?
- Suggest the mechanisms by which the first colonizers arrived on the land.

The Ecology of Higher Education Andrew Martin, 2026-01-01 Shows how ecological models of change can be applied to education Higher education needs to change and it is already changing as a consequence of technology and the implementation of tools from artificial intelligence There are natural processes of change that have been happening since the beginning of life on Earth including ecological and evolutionary change This book explores the value of adapting these processes to education to show convincingly that educators have much to learn from paying attention to the emergent processes of ecology Through examples that span a scale from individuals to communities it provides examples and perspectives that can help change our thinking and enact practices that can enable all students to achieve greatness Rather than directing education toward specific objectives ecology shows that we can support students on unique educational journeys through an emphasis on student centeredness collaborative interactions and building communities of people and ideas in the minds of students Library of Congress Subject Headings Library of Congress, 2012 *Guide to the Gods* Marjorie Leach, 1992 Over 20 000 entries covering every type of deity from every world culture past present Alphabetical within 8 categories Vegetation Science in Forestry Elgene E. effective succession systems in their organizations *A Treatise on the Succession to Property Vacant by Death* John Ramsay McCulloch, 1848 **Who Comes Next?** Meridith Elliott Powell, MBA, CSP, Mary C. Kelly, PhD, 2022-04-19 Leaders leave. It's inevitable. It might even happen today. Are you prepared? Every organization needs a plan for leadership succession, but few leaders know how to start the process. WHO COMES NEXT solves that problem and easily guides you through the steps of creating a viable succession plan. The book simplifies the process and gives you the tools you need to build and activate your leadership succession. Whether you are part of a small family business or a Fortune 500 company, you need to start now by answering the question WHO COMES NEXT. This book is a comprehensive look at succession planning, but with a refreshing spin that favors the practical over the theoretical. It's applicable to any industry, and readers will benefit from action items, tools, and resources with every chapter. Succession planning has never been more critical, and this book is a must-read for any professional looking to answer the question Who Comes Next. Michael Delucchi, President and Chief Elevation Officer, The Elevate Group. Meridith and Mary are my go-to experts for succession planning, and they've created the definitive guide for how to build a strong succession plan. In this book, they break it down, give you a strategy, and deliver everything you need to create leadership depth at every level of your organization. Angela Cox Weston, President, Midwest Speakers Bureau. Succession planning goes way beyond the person at the head of the company. Depth on the bench is essential to ensure an organization's resiliency and contingency planning. Eric Holloway, Captain, U.S. Navy, retired. Succession Planning for Family Businesses Michael A. Lobraico, Jonathan Isaacs, 2011-08-23 Whether big or small, global or local, family businesses are the engine of wealth and security for owners, families, employees, and business as a whole. But as this book shows, that engine can easily break down. If the family ownership and business circles related to the business fail to hold regular and candid conversations that clarify ownership's intent for the business and the rules for family members' ownership of and employment in the company, and if the business fails to run itself on solid, independent business principles. Using an entertaining case study of a composite company, Blooms Floral, the authors coach readers in how to conduct these conversations to ensure that future generations of their family business not only survive but thrive. The Succession Principle David L. McKenna, 2014-12-23 Succession is the hot topic in leadership development but the subject has rarely been addressed in Christian literature As a college university and seminary president who experienced three successions in leadership David McKenna is eminently qualified to speak on the subject He begins by introducing us to the Succession Principle What we bring to leadership is important What we do in leadership is more important What we leave from our leadership is most important of all Once our priority shifts from success to succession the door is open to read John 17 as the Prayer of Succession for Jesus In this final report Jesus transfers to his disciples and to us the same enduring trust transforming truth and unifying love that he has received for leadership from his Father With these legacies come specific gifts of succession to complete our task develop disciples advance the kingdom and see the fulfillment of Christ s promise Greater things than these shall you do Succession in the spirit of Christ then is written not in terms of success but in the seamless transition of sustainable gifts culminating in the gift of greater things
