With all other options exhausted, the U.S. calls in their new team, Task Force X, led by Rick Flag. But what is this? An island in the South Pacific inhabited entirely by giant dinosaurs. A line of brave soldiers is all that stands between civilization and their giant, deadly claws. Can the Suicide Squad save humanity from these oversize monsters? The Squad will go on—or will it? Forget the terrorists occupying American soil, the guerrilla factions killing each other off or the aliens invading Earth. It's the war at home that may spell the end of Director Amanda Waller and Task Force X. Waller's Suicide Squad of incarcerated super-villains and troubled agents has worked effectively under the radar until now. No one—not even her staff in the Belle Reve metahuman prison facility—trusts The Wall. Plus, rising tensions among ever-changing Squad members mean that they've become a bigger threat to each other than to their opponents. And when government officials with presidential aspirations discover the existence of Task Force X, Waller is forced to do whatever it takes to keep her team from being exposed to the world, even if it means crossing the thin moral line that separates her from the disposable villains recruited for her impossible assignments. *New Suicide Squad Vol. 1: Pure Insanity* Sean Ryan, 2015-07-21 Setting the world's most dangerous super-criminals against the most insidious threats to

national security that's the idea behind the elite black ops unit officially designated as Task Force X. It's perfect on paper. But the real world rarely goes according to plan. Threats evolve. Teammates turn on each other. Blood and betrayals flow like rivers. And that's why Task Force X is better known as the Suicide Squad. Vic Sage aims to change the equation. Replacing Amanda Waller as the puppet master of Suicide Squad's motley crew, he's introducing wild cards like Deathstroke and the Joker's Daughter to whip the existing team Deadshot, Harley Quinn, and Black Manta into shape. But the world's deadliest assassin and the Clown Princess of Crime have ideas of their own and no explosive implants to keep them in line. Can this new Suicide Squad survive or will it implode before it even begins? the whole Suicide Squad down on both of them Well Deadshot's teenage daughter has been kidnapped by the reptilian death cult Kobra who want to transform her into their new leader to take revenge on her dad And if Batman is going to rescue her it has to be with Deadshot's help as long as the assassin agrees not to kill anyone while they're teamed up Of course killing people is Deadshot's thing Then there's the small matter that while Batman is tracking Kobra the Suicide Squad and their new field leader Captain Cold are tracking Batman When everyone converges and the bullets and freeze rays start flying will Deadshot be able to become the hero Batman wants him to be to rescue his daughter Or will Batman end up in the Suicide Squad with a bomb in his brain Writer Rob Williams Justice League Vs Suicide Squad and a team of talented artists present the final chapter for the Suicide Squad Collects issues 41 44 47 50 and Annual 1
