Summa Jaarboek Over 1983:

Brinkman's catalogus van boeken en tijdschriften, 1989 With 1901 1910 1956 1960 Repertorium is bound Brinkman's Titel catalogus van de gedurende 1901 1910 1956 1960 Title varies slightly *Boekblad*, 1991 **Repertorium van boeken en tijdschriftartikelen betreffende de geschiedenis van Nederland**, 1986 **Perfect Will Theology** J. Martin Bac, 2010-04-16 This book revisits four early modern debates of Reformed theology concerning the will of God Reformed scholasticism advocated a particular relationship between divine knowledge will and power which was altered by Jesuits Remonstrants Descartes and Spinoza In all these debates modal categories like contingency and necessity play a prominent part Therefore these positions are evaluated with the help of modern modal logic including possible world semantics The final part of this study presents a systematic defense of the Reformed position which has been charged of theological determinism and of making God the author of sin In modern terms therefore the relation of divine and human freedom and the problem of evil are discussed *Brinkman's cumulatieve catalogus van boeken*, 1983 Voorts een alphabetische lijst van Nederlandsche boeken in België uitgegeven *Bibliografie van de Nederlandse taal- en literatuurwetenschap*, 1983 Aangevuld met de bibliografie van de friese taal en literatuurwetenschap **Words of the Living God** Pim Valkenberg, 2000 The aim of this book is to find an answer to the question how did St Thomas Aquinas 1224-5-1274 use Holy Scripture in his theology Distinguishing between a quantitative method for determining the place of Scripture in a theological text and a qualitative method for determining its functions the author of this study concludes that Aquinas does not only use Scripture in several functions in his theology but first and foremost regards Scripture as source and framework of theology itself While an analysis of Aquinas texts on the resurrection of Christ shows the functioning of Scripture as a factor within the text but also as a precondition for the text a series of comparisons between different subject matters literary genres and sources show that the importance of Scripture is a characteristic of Aquinas theology in its entirety even at places where Scripture is not quoted at all This conclusion does not only show the ecumenical importance of Aquinas theology but also the relevance of his theological manner of reading Scripture for modern theologians **Nederlands Kunsthistorisch Jaarboek**, 2004 Dutch Typography in the Sixteenth Century Paul Valkema Blouw, 2013-06-03 When compiling the short title catalogue of books printed in the sixteenth century northern Netherlands from 1541 to 1600 Paul Valkema Blouw was confronted with a large number of problem cases such as anonymously and or surreptitiously printed editions fictitious printers and undated or falsely dated printed works By minutely analysing the typefaces initials vignettes and other ornaments used drawing from his extensive knowledge of secondary literature archival information and his unrivalled typographic memory he not only managed to attribute a surprising number of these publications to a printer but also could establish the period of time in which as well as the places where they must have been printed These findings and the ways in which they were reached are described in the present collection of papers They are of paramount importance to scholars

engaged in research of the period concerned whether in the field of church history national history or book history
