Searcher ,2009 Information and Communication Technologies for Sustainable Tourism Alisha Ali,Andrew Frew,2013-05-07 Sustainable development is a highly topical issue and is of critical importance to tourism as the environment is of utmost importance for the continued development and prosperity of the industry There have been numerous texts written on sustainable tourism and the measures to mitigate and manage this but none which acknowledges Information and Communication Technologies ICT as a mechanism of doing so despite being an emerging area of research ICT in this context refers to innovative tools which form an integrated system of software and networked equipment that facilitates data processing information sharing communication and the ability to search and select from an existing range of products and services for an organisation s benefits Despite the symbiotic relationship which exists between ICT and sustainable tourism there has been little research which has considered how the use of such technology can be used to make sustainable tourism development a more workable reality This opportune book is the first to provide a focus on the interrelationship of these two important topics demonstrating their synergies and providing insight into a new and innovative approach to managing sustainable tourism development It considers the use of technology to reduce the negative impacts of tourism from both the demand and supply side perspectives A critical review of a range of cutting edge technologies used by tourists and businesses to assess their usefulness in managing sustainable tourism development from the macro to the micro

level is also discussed It further integrates examples and practical applications to show how ICT can be an invaluable mechanism in the management of sustainable tourism development This cutting edge volume provides a wealth of information on an important yet neglected subject This book will be invaluable reading for students researchers academics and members of the tourism industry looking for new and innovative ways of fostering a more sustainable tourism industry

*Applied Philosophy for Health Professions Education* Megan E. L. Brown,Mario Veen,Gabrielle Maria Finn,2022-05-17 This book increases the accessibility of philosophical concepts to a wider audience within medical education translating knowing to doing It prompts health professions educators and researchers to consider the dynamics and structure of contemporary issues within health professions education in new philosophical ways Through considering the practical implications of applying philosophical concepts to contemporary issues the book recommends avenues for further research and pedagogical change Individual educators are considered with practice points for teaching generated within each chapter Readers will acquire practical ways in which they can change their own practice or pedagogy that align with the new insight offered through our philosophical analysis These practical recommendations may be systemic in nature but the authors of this book also offer micro level recommendations for practitioners that can be considered as ways to improve individual approaches to education and research
