Like Nobody's Business Andrew C. Comrie, 2021-02-23 How do university finances really work From flagship public research universities to small private liberal arts colleges there are few aspects of these institutions associated with more confusion myths or lack of understanding than how they fund themselves and function in the business of higher education Using simple approachable explanations supported by clear illustrations this book takes the reader on an engaging and enlightening tour of how the money flows How does the university really pay for itself Why do tuition and fees rise so fast Why do universities lose money on research Do most donations go to athletics Grounded in hard data original analyses and the practical experience of a seasoned administrator this book provides refreshingly clear answers and comprehensive insights for anyone on or off campus who is interested in the business of the university how it earns its money how it spends it and how it all works *The Journal of Student Financial Aid*, 1997 *Mission and Margin* Daniel Diermeier, Brett C. The Price You Pay for College Ron Lieber, 2021-01-26 Named one of the best books of 2021 by NPR New York Times Bestseller and a New York Times Book Review Editor's Choice pick Masterly represents an extraordinary achievement It is comprehensive and detailed without being tedious practical without being banal impeccably well judged and unusually rigorous Daniel Markovits New York Times Book Review Ron Lieber is a gift Scott Galloway The hugely popular New York Times Your Money columnist and author of the bestselling The Opposite of Spoiled offers a deeply reported and emotionally honest approach to the biggest financial decision families will ever make what to pay for college a decision made even more confusing because of the Covid 19 pandemic Sending a teenager to a flagship state university for four years of on campus living costs more than 100 000 in many parts of the United States Meanwhile many families of freshmen attending selective private colleges will spend triple over 300 000 With the same passion smarts and humor that infuse his personal finance column Ron Lieber offers a much needed roadmap to help families navigate this difficult and often confusing journey Lieber begins by explaining who pays what and why and how the financial aid system got so complicated He also pulls the curtain back on merit aid an entirely new form of discounting that most colleges now use to compete with peers While price is essential value is paramount So what is worth paying extra for and how do you know when it exists in abundance at any particular school Is a small college better than a big one Who actually does the teaching Given that every college claims to have reinvented its career center who should we actually believe He asks the tough questions of college presidents and financial aid gatekeepers that parents don't know or are afraid to ask and summarizes the research about what matters and what doesn't Finally Lieber calmly walks families through the process of setting financial goals explaining the system to their children and figuring out the right ways to save borrow and bargain for a better deal The Price You Pay for College gives parents the clarity they need to make informed choices and helps restore the joy and wonder the college experience is supposed to represent
